

# Hazel Health COVID-19 Safety Program

Hazel is the national leader in K-12 school based healthcare.

**An essential bundle of COVID-19 tools for K12 schools uniquely supported by real-life doctors on-demand.**

## Hazel School Based Healthcare

Hazel's world class pediatric care team provides students with on-demand doctor visits right in the school nurse office, or from home with a parent. Our team supports schools, staff, and parents in making critical decisions about student health.

## Hazel Covid-19 Screener

Based upon your district health protocols and accessible from any device, our COVID-19 screener enables parents to confirm symptoms their child may be experiencing **before** the child enters a school environment. Designed with ease of access, multilingual support, and HIPAA and FERPA compliance in mind.

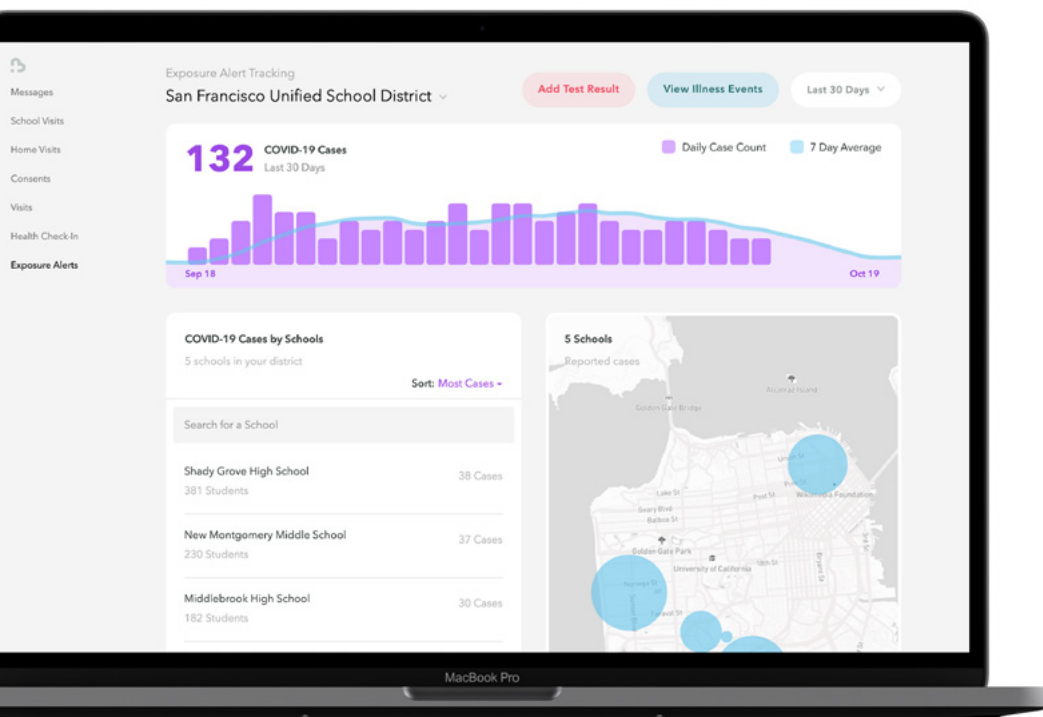

## Hazel Exposure Alert

When one student tests positive for COVID-19, this is just the beginning of a process to identify all others who have an exposure risk, and enacting a comprehensive communications plan. Hazel's Exposure Alert holds the sensitive health data that families self-report about their COVID-19 status on a secure platform, and transforms it into an actionable dashboard, enabling rapid response at the school and district level.

# Hazel Health Exposure Alert

As schools are notified of any positive cases of COVID-19 they can:

- ☒ Keep track of highly sensitive health information with HIPAA and FERPA complainer
- ☒ Notify District of positive cases instantaneously, eliminating unsecured emails from process
- ☒ Identify all students and staff exposed to each confirmed case
- ☒ Provide support & next steps for students

Exposure Alert syncs with class schedule data from Clever to provide actionable information for campus safety.

**Clever**

# Hazel Health Covid-19 Screener

Parents can answer COVID-19 screening questions on behalf of their student before leaving home.

Made for ease of access:  
Complete on any device. Bilingual. Web based.
