

THURSDAY, MAY 26, 2:00 PM - 6:00 PM

PEDIATRIC EATING DISORDERS: Effective Coordination of Care

ABOUT THIS CME

Join the clinical staff of Kartini Clinic for Children and Families for a targeted CME training for pediatric health professionals interested in expanding their knowledge of pediatric eating disorders.

Desired Outcome:

Participants will understand the advances in medicine, genetics and diagnostics that are changing our field and how good coordination of care among a child's entire pediatric care team can improve outcome and control treatment costs of these chronic illnesses.

AGENDA

2:00pm: Welcome

2:15pm: Advances in Treatment

(Julie O'Toole MD) - 60 mins

Objective: General introduction to use of pharmacogenetic testing to individualize patient care, as well as specific focus on setting biologically meaningful goal weights for all patients and restoring menses in girls with anorexia nervosa.

3:15pm: Case Review

(Naghmeh Moshtael MD) - 90 mins

Objective: After the activity, participants will have a better understanding of the presentation of eating disorders in young children and in males through case studies.

5:00pm: Coordinating Care

(Katie Wargo LCSW, Leslie Weisner LMFT) - 60 mins

Objective: After the activity, participants will have a better understanding of how to coordinate evidence-based standard of care for pediatric eating disorders.

6:00pm: Social Hour

Stay for an informal Q&A session and brief tour. Meet faculty and network with other CME participants (refreshments to be provided).

WHO SHOULD ATTEND

This training is designed for Pediatric Primary Care Providers, Neurologists, Geneticists, Residents, Nurse Practitioners, Physician Assistants, and Allied Healthcare Professionals.

REGISTRATION

Early Registration:

\$15.00 (plus processing fee)

After May 1, 2016:
