

Pediatric Care Conference

Thursday, May 19, 2016
OR Friday, May 20, 2016

Presented by:

**RANDALL CHILDREN'S
HOSPITAL**
LEGACY EMANUEL

SKY LAKES
MEDICAL CENTER
LIFE · HEALING · PEACE

Sky Lakes Medical Center
Community Health Education Center
2200 N. Eldorado
Klamath Falls, OR 97601

Course Description:

This activity is designed to provide nurses, respiratory therapists, physicians, nurse practitioners, and physician assistants with the latest information on pediatric care. Participants will gain practical knowledge from expert providers in the care of ill and injured children.

Contact Deb Wetherelt at 541-274-2034 or deborah.wetherelt@skylakes.org for more information.

Agenda:

- 8:00-8:15 Welcome & Housekeeping
- 8:15-9:00 Pediatric Seizure Management
- 9:00-9:45 Pediatric Medication Safety
- 9:45-10:00 Break
- 10:00-10:45 Anaphylaxis Treatment and Management
- 10:45-11:15 Treating Pediatric Bronchiolitis – The Latest Guidelines
- 11:15-12:00 Lunch
- 12:00-1:00 Pediatric Sepsis and Emergent Infections
- 1:00-2:00 Pediatric IV / IO site selection and bolusing recommendations
- 2:00-2:15 Break
- 2:15-3:15 Respiratory Interventions for Common Pediatric Illnesses and Conditions
- 3:15-4:15 Mitigating Needle Pain
- 4:15-4:30 Wrap-up and adjourn

Learning Objectives:

Upon completion of this activity, participants will be able to:

- Review the basic terminology and seizure types.
- Discuss current seizure management and common side effects of anti-epileptic drugs
- Identify the elements of the pediatric medication safety best practices.
- Recognize signs and symptoms of pediatric anaphylaxis, indications for intubation, and when to consider transfer to a higher level of care.
- Update and discuss areas of controversy or change in the current bronchiolitis management guidelines.
- Recognize the differences between the pediatric and adult patient in terms of compensatory mechanisms, length of respiratory compensation, and indications for intubation.
- Summarize evidence-based management of sepsis and emergent infections in the pediatric patient.
- Increase knowledge of pediatric IV and IO site selection, placement, and securement.
- Review current pediatric bolusing guidelines and discuss bolusing techniques via IV and IO routes.
- Increase awareness of evidence-based management of needle pain in the pediatric patient.

To Register:

May 19, 2016 OR May 20, 2016
