

TBI Resources

There are several resources. www.nfhs.org has suggested guidelines for management of concussion in sports pamphlet, and it includes a sideline decision making and medical clearance RTP protocol. This is included in the OCAMP Max's Law Concussion Management Implementation Guide for School Administrators. The guide also includes a return to academics protocol in the back under the Information for Educators tab. CBIRT, www.cbirt.org or tbiteam@wou.edu is also a great resource and they have a librarian that can look anything up for you.

There are 9 regions for the State TBI team, each region has a TBI team liaison, and that person can be reached by contacting Pat Sublette, PhD TBI Team Coordinator at 541-346-0597, or Cathy Thomas, TBI Team Manager at 541-346-0593 or their project support person, Laura Johnson at 541-346-0573. The Oregon TBI team holds trainings each month that might be of interest to some, again the CBIRT website has all of this information.
