

Training for New School Nurses

Free training is available for nurses who are new to practice in the school setting.

The 4 hour training focus is an overview of rules and laws which govern school nursing in Oregon.

The training covers topics such as IEP's, 504's, FERPA/HIPAA, medication administration, anaphylaxis, head lice, field trips, etc. and is meant to be an overview only; it is not district-specific.

Once a new school nurse has attended the training session, she/he will have a better understanding of how it all works when the district-specific issues and policies are addressed in the local district.

For more information or to schedule the training, contact Leslie Currin RN, School Health Specialist Oregon Department of Education, phone 503-947-5812, leslie.currin@ode.state.or.us
