

The White House Office of National Drug Control Policy (ONDCP)

and

The United States Department of Education (ED)

present a discussion on

Preventing Youth Drug Use and Overdose: Strategies to Keep Students Alive and Healthy

Date: May 31, 2023

Time: 2:30-3:30 pm ET

Drug-related emergencies and overdoses in school settings are a growing concern in the U.S. Schools are uniquely positioned to provide evidence-based approaches that promote student health and learning in partnership with their local and state health departments.

Please join the Director of the White House Office of National Drug Control Policy, Dr. Rahul Gupta, and the U.S. Secretary of Education, Dr. Miguel Cardona, for a virtual discussion about the Biden-Harris Administration's efforts to reduce youth drug use and overdose, as well as examples of schools from across the country that have implemented life-saving measures for their students. The discussion will include evidence-based primary prevention, access to naloxone, and resources to support schools.
