Swiss concept of children in school and Covid

Children under 14 very low risk of spread / degree of illness
No requirement of social distancing within the school setting.

Children over the age of 12 to wear masks on public transport.

Children over 14 risk increases and 1.5m social distancing required
Each Kanton (state) is determining is mask in school
Kanton Zug - masks if social distancing requirement can not be meet

ISZL approach

At ISZL, our Leadership Team and the ISZL Board continue to consider how to balance the safeguarding of the health of our students, staff, and families with our community's educational needs.

Health, Wellness and Safety are our Priority

Driving decision making

There will be no at-home learning option to start the year

If a child was well enough to come to school pre lockdown then they should be in school now.

Covid Team

Director

Division principals

Nurse

Communications

Director of operations

Bubble size

Increased from class bubbles to grade bubbles (approx 100 students)

Breaks with grade level only

No parent on campus

Visitors - normal running of the school

Visitors - complete contact tracing form which is kept for 14

Assemblies - grade levels only

Staff Meetings - online if possible.

Social distancing & Masks

Students

Primary age 3-11 - none

Middle school 12-14 - not required, masks encouraged

High school 15-18 - social distancing required, masked required

Staff - should social distance or wear mask

Supply of masks/type of masks

Hand washing

Regular hand washing through the day

- Hand sanitizer on entrances to all building

Ventilation

Regular ventilation of rooms throughout the day

- Windows open wide for approx 10 minutes every hour or when a class changes rooms
- Ventilation in school building
 - Dyson cooling towers
- Spend time outside where and when possible

Cleaning

Continue with our increased cleaning regime.

Teachers responsible for classroom during the day

- Decluttered classrooms
- Teachers clean tables / electronic equipment used

Teams of cleaners through the school day cleaning

- Emptying bins in classrooms twice a day
- High touch areas - banisters, toilets, door handles etc
- Shared spaces - staffroom, reception
- Going into classrooms at the end of the day for longer clean

Sickness

- Parents to keep children at home if unwell with mild symptoms (sore throat, headache).
- Must be symptom free for 48 hrs before return to school (swiss drs say 24 hrs)
- Children that have been absent from school due to illness must come to their nurses office for a health screen before returning to the classroom. (Temp check and questioned)
- Fever considered of 100 F (37.8 C) or if any symptoms 99.5 F (37.5C)
- If unwell, to use screening tool to determine if required to see a doctor
- If tested - child and siblings not to come into school until result
- In the event of a positive covid test - as a school we are required to inform the class/contacts of that student.
- In the event of 2 positive cases in one class group the Kanton doctor will determine if whole class to be in isolation.
- The same requirements of staff.
- Link to [ISZL Illness and fever policy \(Covid-19\)](#)

Isolation room/health office

Room needs to be available in order to isolate a child or staff member who you feel is unwell

- Able to ventilate
- Able to maintain 1.5 meters distance
- Bed
- Table
- Chair
- Cleaning products, masks, gloves

Health room

- Markings to help keep children social distancing
- Cleaning between each child on chair
- Teachers calling down and we control the number of children sitting in the office
- Teacher given first aid supplies

Bus service

Protective plastic screen between drive and children

All students and drivers to wear masks due to mixed bubbles

Food Service

Staggered - grade bubbles

No self service

Plexi glass

Must bring own water bottle

Tables laid

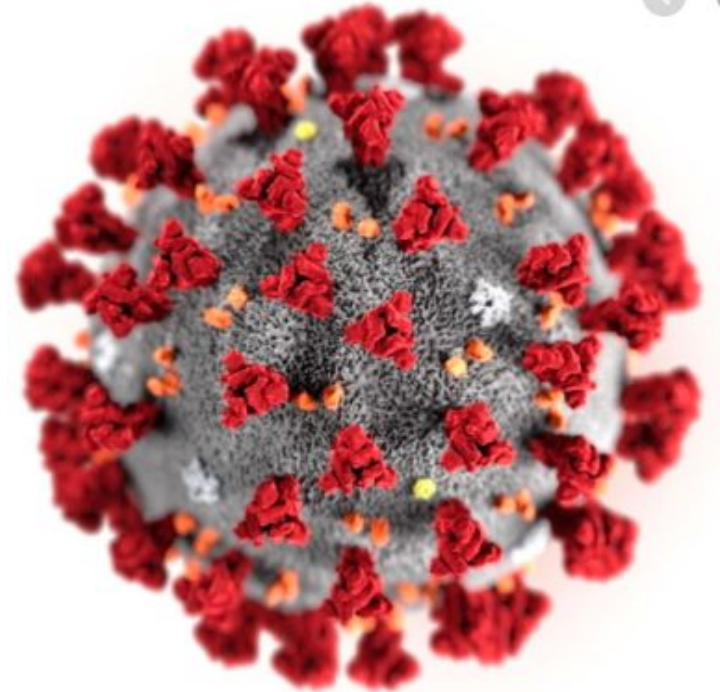

All kitchen staff wear masks

In event of a positive case

Follow health department requirements, quarantine or not?

Switch on myMedBot app for limited time frame

Class size bubbles

Other thoughts

Library

Sports events

Social events

Day trips allowed following covid risk assessment by team

No overnight trips

School will look different and that is okay

Thank you for listening.

Any questions?
