

Region 19 has over 40 active members as of end of September. The upcoming Southwest School Nurses Conference was feature in TSNO's October newsletter - thank you! I will report how many nurses attended conference at our November meeting. Our region partner with a local organization "Immunize El Paso" whose main mission is to detect health problems early and plan interventions with other organizations like TSNO19 who offers mini-conferences, information workshops and support for school nurses in our region. We will distribute 2,500 magnets with helpful numbers to nurses; magnets include our local webside information. Our next mini-conference is in April 2017.

I hope this information serves as our brief report of our activities. See you in November.

Best Wishes,

Luisa F. Herrera, RN
TSNO19 President
