# Highlights and Information

## Welcome to San Antonio and to the Texas School Nurses Organization 14<sup>th</sup> Annual Conference!

The 2016 TSNO conference theme, **School Nurses: The Link To A Healthy Future**, has been designed to provide many opportunities, aligned with NASN's Framework for 21st Century School Nursing Practice for School Nurses, to enhance skills and foster initiatives specific to school nursing, opportunities that will help you enhance and focus on the key principles and components of current day, evidence-based school nursing practice.

In addition to many professional, challenging, and fun breakout sessions, exemplary general sessions, and inspiring poster presentations, conference attendees will have opportunities to attend the Geriatric and the Jurisprudence & Ethics sessions required by the Board of Nursing (BON) and experience the interactive expert panel on delegation.

The Exhibit Hall will host Dr. Jane Chevako's book signing and a generous variety of exhibitors and vendors showcasing the most current products and services to support your practice. In addition, this year will be our first Power of the Purse silent auction to support the Children's Shelter in San Antonio. Follow the conference experience on Twitter by using the hashtag, #TSNO2016.

The enriched knowledge and skills you will gain at the 2016 TSNO conference will not only inspire, but also enhance your ability as you continue to deliver the high quality nursing care that equips our students to be healthy, safe, and ready to learn. See you there! Francis Luna, TSNO President

≈ **Quality Care, Quality Profession!** ≈

### Conference Objective:

The purpose of the Texas School Nurses Organization (TSNO) Annual State Conference is to provide evidence-based and/or best practice educational offerings that address identified gaps in knowledge and skills, promote excellence in clinical practice and improve quality of health care that Registered Nurses deliver in schools, which is an independent practice setting. The identified gaps in knowledge and skills include the most current guidelines and standards for the management of chronic and acute health-related conditions seen in the school aged population and the enrichment of the School Nurse's professional practice. **The desired outcome of the 2016 TSNO Conference is that Registered Nurses be prepared to implement their enhanced knowledge to meet the chronic and acute health needs of students while advocating that optimal physical and mental health is the foundation to academic success through promoting School Nurses as the link to a healthy future.** This achievement will be evident through written feedback from participants by means of the online evaluation tool.
