Highlights and Information

Welcome to Plano and to the Texas School Nurses Organization 16th Annual Conference!

The 2018 TSNO conference theme, **School Nurses: Practice with Purpose, Professionalism, and Passion**, has been designed to provide many opportunities, aligned with NASN's Framework for 21st Century School Nursing Practice for School Nurses, to enhance skills and foster initiatives specific to school nursing, opportunities that will help you enhance and focus on the key principles and components of current day, evidence-based school nursing practice.

There will be professional, challenging and exemplary general sessions, and inspiring poster presentations. The Exhibit Hall will host a generous variety of exhibitors and vendors showcasing the most current products and services to support your practice. In addition, this year will be our third Power of the Purse silent auction to support City House. The Mission of City House is to provide emergency shelter and transitional residential services to at-risk children and young adults in need, due to abuse, neglect, or homelessness.

The evidence-based knowledge and skills you will gain at the 2018 TSNO conference will strengthen your practice as you continue to deliver professional nursing care that prepares students to be healthy, safe, and ready to learn. Looking forward to seeing you at conference! Lisa Sicilio, TSNO President

Conference Objective:

The purpose of the Texas School Nurses Organization (TSNO) Annual State Conference is to provide evidence-based practice educational offerings that address identified gaps in knowledge and skills. The conference will promote excellence in clinical practice and improve the quality of health care that Registered Nurses deliver in the independent practice of school nursing. The identified gaps in knowledge and skills include the most current guidelines and standards for the management of chronic, acute and psychological health-related conditions seen in the school aged population and the enrichment of the School Nurse's professional practice. **The desired outcome of the 2018 TSNO Conference is for nurses to be prepared to implement their enhanced knowledge to meet the chronic, acute, and psychological health needs of students while advocating optimal physical and mental health for academic success through promoting School Nurses as the link to a healthy future.** This achievement will be evident through written feedback from participants by means of the online evaluation tool.
