Promote NASN/TSNO as Professional Organization

We actively ask our members to reach out the new nurses in surrounding communities, so we can invite them into TSNO. We provide support to new nurses if they are unable to join at this time.

Activities

This summer we held a CNE activity on burn out and secondary stress syndrome for the helping profession. That was very well received and allowed a space where we could relate and share ideas to prevent burn out.

Goals for 2018-2019

Bring the SETT program to West Texas
Add members
Have a mini conference in the summer
