This month provides an excellent opportunity to promote Statewide Automated Victim Information and Notification (SAVIN) programs in teen dating violence cases where the alleged or convicted perpetrator is an adult and the victim is a juvenile teenager; where a juvenile offender is remanded from the juvenile justice system to the criminal justice system; and/or in states where SAVIN encompasses both the criminal and juvenile justice systems, *all* teen dating violence cases. Since the primary audience for messaging is teenagers and youth, this Resource Kit highlights tips for social media outreach, in addition to general media outreach and public awareness information.
