LAVNS Rosters

In April, 2010, LAVNS implemented a new feature called "ROSTERS". By re-deploying LAVNS offender data, Rosters provide each jail with a "live" roster updated every 30 minutes. For example, Jefferson Davis Sheriff's Office roster is www.JeffersonDavis.lavns.org. Each website appears as though it was created just for that Sheriff's office, listing the offenders in custody, along with DOB, Gender and Race. By clicking on the LAVNS logo, victims can quickly register against an offender -- all from your Roster!

Also, you may provide a link to the roster on your website: Visit www.jeffdavis.net to see an example.

Goals of the Rosters:

- The roster data comes from the jail's Jail Management System (JMS), which is already being used from the LAVNS data feed. This re-using of data saves time and money.
- The roster allows a jail to quickly audit its data. By viewing the Roster data for a particular jail, the agency can quickly determine if the data is accurate. This auditing, in turn, serves LAVNS and your agency by providing victims with accurate and timely information.
- Victims can register against any offender on the Roster; thus, providing a quick, easy way for victims to register -- all while on the Agency's website.

Sheriff's Offices	Roster URL
Acadia Parish	Acadia.LAVNS.org
Allen Parish	Allen.LAVNS.org
Ascension Parish	Ascension.LAVNS.org
Assumption Parish	Assumption.LAVNS.org
