“Blank Slides” Feedback Break Resource

This is a generic tool that can be quickly inserted into any presentation. Recommended for middle school through college.

Scroll to page 2 to view the resource.
Just add blank slides

- take the slides you usually use for a topic/lesson
- insert blank slides between key slides or sections
- send the slides as is to students (via Google classroom, etc.)
- tell the students to use the blank slides as a chance to reflect on what they learned/remember based on the previous slides
