HOW WILL THE
FUNDING BE
USED?

As a non-profit organization, the WID Michigan Chapter has a limited amount of funding available. Requests are evaluated against several criteria including students' ages, # of students impacted, the STEM committee's assessed value of the event and the overall mix of the events requesting support for the fiscal year. While all events may be worthwhile, support for all requests may not be possible.

For more information about the Michigan Chapter, please visit www.wid-mi.org.
