

NELA has been a big part of my success as a plaintiff's employment lawyer. I enjoy the collegiality of the membership and the vibrant exchange of ideas and strategies. I enjoy having NELA members who are good friends --fighting the good fight against the big institutions. And that is why NELA is so important to me and to all of us. I want to help keep NELA going strong.

I will work on expanding NELA's membership and providing deeper connections with our local affiliates while working to end force arbitration. I have the time, energy and commitment to continue to work on these issues and hope to have the opportunity to do so.
