Let's do IT together

Because whatever your digital question,
NetHope Connected *has the answer.*

Tech works better when you are not alone

Nonprofit leaders everywhere face the same pressure: limited time, tight budgets, high expectations. We know digital can strengthen fundraising, delivery, and safe operations. The real challenge is knowing what works in our own NGO reality. Doing tech alone often leads to repeated effort, avoidable cost, and tools people struggle to use.

NetHope Connected is the relief

A trusted, nonprofit-only space where people share real experiences, not theory. Ground-truthed insights replace guesswork, helping leaders in sub-national, national, and regional nonprofits with 5–200 staff, basic digital capacity, and access to English-language resources strengthen their digital capabilities together, with less cost, less effort, and far less risk.

You belong

With people who truly understand nonprofit ambitions & constraints

Feel supported. Learn faster. Move forward with confidence.

- Strengthen your voice with funders and partners by using digital tools to tell your story clearly, track results with confidence, and build trust.
- Belong to a trusted global network of nonprofits facing the same pressures as you are.
- Gain practical skills that will strengthen your everyday operations, and save you time.

Whether you're seeking to use digital tools for fundraising, data collection, or program management, refreshing your website, protecting your data, or just figuring out how you can make best use of AI, we have what you need.

No jargon. No hype. Just real digital know-how tailored to your needs.

Built for you, with you

Twenty-five years of shared learning behind every connection

What's included in NetHope Connected:

- Entry into the draw for a free pass to the **2026 NetHope Global Summit in Amsterdam**
- All within a community of NGOs just like yours, pursuing digital goals together.

Take your next digital step with confidence

Join NetHope Connected now!

NetHope Connected is sustained through a modest annual, cost-recovery fee.

One simple payment gives everyone working in your organization full access for 12 months, making it a highly cost-effective way to build digital and AI skills across your entire team.

Fees are tiered by annual organizational income to keep access fair and proportionate*

Annual income (USD)	12-month fee (USD)
under $100,000	$229
$100,001 - $500,000	$662
$500,001 - $2,000,000	$2,205

*Annual income refers to total organisational income over the past 12 months. Amounts are shown in US dollars for consistency. NetHope Connected is available to organizations with annual income of less than 2 million US dollars.
