

## Educational Product Disclaimer

The **Emergency Neurological Life Support (ENLS)**, hereafter referred to as the Product, is intended solely for informational purposes and only to supplement – but not replace – required training and supervision by qualified instructors. The content, information, opinions, and viewpoints contained in these educational materials are those of the authors or contributors of such materials.

Medicine is an ever-changing field; viewers are strongly advised to check the most current guidelines, and to verify the indications, contraindications, and proper procedural techniques for any and all of the information provided in this video. While Neurocritical Care Society (“NCS”) and its committees take great care to screen the credentials of the contributors and make every attempt to review the contents, NCS MAKES NO WARRANTY, EXPRESSED OR IMPLIED, as to the completeness or accuracy of the content contained in these educational materials or on its website. The readers and viewers of these materials use these materials at their own risk, and NCS shall not be responsible for any errors, omissions, or inaccuracies in these materials, whether arising through negligence, oversight, or otherwise. Reliance on any information provided in this Product or appearing on NCS’s website is strictly at the reader’s and viewer’s own risk.

The information and educational material contained herein is meant only to promote general understanding and dialogue among healthcare professionals concerning the management of patient care and outcomes during the first hours of a patient’s neurological emergency and related topics. The information provided is not meant or intended to serve as a substitute for a healthcare professional’s clinical training, experience, or judgment. By way of example, the dose, method of administration, and contraindications for any administered drug should always be confirmed before use. All procedures and use of medical-device information should be undertaken only by properly trained and certified medical personnel after confirmation of information from third-party sources, including by consulting the FDA-approved uses and information. For patients and individuals, such information is not to be a substitute for professional medical or healthcare advice or counseling. For medical issues or concerns, including decisions about medications and proper procedures, readers and viewers should always consult their physician or seek immediate assistance from emergency personnel.

NCS SPECIFICALLY DISCLAIMS ANY WARRANTIES, EXPRESS OR IMPLIED, including implied warranties of merchantability or fitness for a particular purpose. Such information is provided “AS IS” and is believed to be accurate at the time of its publishing, but it is the reader’s or viewer’s job to independently evaluate the accuracy of any information found in NCS’s educational materials or website. If you are a healthcare professional, you should rely on your professional judgment and any applicable laws or ordinances in evaluating any and all information, and confirm the information contained in this Product and on the NCS website with other sources and reliable third parties before undertaking any diagnosis or procedure based on these materials. If you are a consumer or patient, you should evaluate the information together with your physician or another qualified healthcare professional. NCS makes no warranty that the information contained in its educational materials will be error free, and the readers and viewers of such information use this information at their OWN RISK.
