ESSENTIALS OF NEUROCRITICAL CARE (ENCC) CERTIFICATION COURSE

NCS is offering a pre-meeting ENCC course on Monday, October 14 and Tuesday, October 15 prior to the Annual Meeting. Please be advised that this course requires pre-registration and an additional fee.

COURSE DETAILS
The Essentials of Neurocritical Care (ENCC) course is designed to review and teach the essential topics of neurocritical care through a combination of on-line course material, in-person case discussions, and hands-on workshops. Prior to the live session, participants will be given access to the online course which includes 15 required core modules with recorded lectures and examinations, and access to an additional 18 elective topic modules. Training will culminate at the live session with an intensive two days of case discussions and hands-on workshops which will teach specific neurocritical care techniques.

Participants who are certified in Emergency Neurological Life Support (ENLS) will find this course to be an excellent next step in training, as the content goes beyond the first few hours of a neurologic emergency to cover pathophysiology, diagnostic studies, treatment, and transition to discharge.

Core Topics
- Acute Ischemic Stroke
- Intracerebral Hemorrhage
- Subarachnoid Hemorrhage
- Seizures and Epilepsy
- Acute Neuromuscular Disorders
- Traumatic Brain Injury
- Traumatic Spinal Cord Injury
- Metabolic Encephalopathies & Delirium
- Hypoxic-Ischemic Encephalopathy in Adults
- Prognostic Assessment in NCC
- Clinical Evaluation of Coma and Brain Death
- Respiratory Support of the Neurocritically Ill
- Multimodality Neuromonitoring
- Pharmacology in the Neuro ICU
- Ethics/End of Life

Workshops
The live session will include the following workshops:
1) Airway and ventilation (invasive and non-invasive) management
2) Targeted Temperature Management & Sedation
3) ICP placement & management
4) Multi-modality monitoring: oxygenation, perfusion, metabolism, cEEG
5) Ultrasound – Neurocritical Care
6) Neurological Exam/Scales and Imaging

CERTIFICATION AND CONTINUING EDUCATION CREDIT
15 hours of CME for the live session
20 hours of CME for the online portion

Successful completion of the live course and accompanying online exams will provide a two-year ENCC certification.

PRICING*
Physicians: $1,000
Healthcare Professional and Trainee: $750

*In addition to the live and online course materials, participants will receive a one-year subscription to Neurocritical Care ON CALL, the only online, up-to-date comprehensive resource dedicated to the practice of neurocritical care.
