

EMERGENCY NEUROLOGICAL LIFE SUPPORT:

What to do in the critical first hours of a neurological emergency

The Emergency Neurological Life Support (ENLS) course is designed to help healthcare professionals improve patient care and outcomes during the critical first hours of a patient's neurological emergency. ENLS demonstrates a collaborative, multi-disciplinary approach and provides a consistent set of protocols, practical checklists, decision points, and suggested communication to use during patient management. This activity is designated for a maximum of 15 AMA PRA CME ANCC
