

YOUR QUARTERLY RUNDOWN... ARTICLES TO GET YOU THINKING

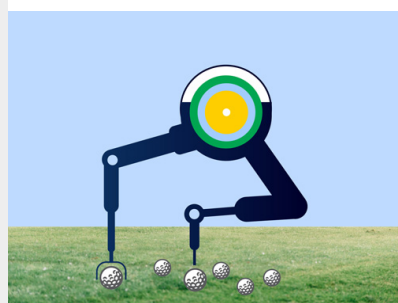

Sky-high shipping costs could keep prices surging until mid-2023

Tangled supply chains started to worsen US inflation in 2021, but the problem probably won't die down for at least another year. Shipping costs remain elevated, and it usually takes 12 to 18 months for those higher costs to made their way to the prices Americans pay. [Read more](#)

What Separates Leaders from Laggards in the Internet of Things

For all the excitement that has built up around the Internet of Things (IoT)—the network of digitally connected devices whose economic value could amount to trillions of dollars per year—the IoT's impact varies greatly from one company to the next. [Read more](#)

Automation Solves Range Wage Drain

Ask any club operator about managing the driving range and you won't get far into the conversation before you hear about the part-time kid who vanishes in the middle of the day, only to be found riding around in the range picker like a slow grazing lamb. [Read more](#)

How Giving Workers the Skills to Succeed Can Counter the Great Resignation

Leaders looking for competitive advantages in every facet of their business cite employees' data skills as a top need. But when it comes to providing those data-training opportunities, companies keep failing. [Read more](#)

Lawmakers Take Aim at Gas-powered Lawncare Tools

A lot would change under a landmark new rule proposed by the Securities and Exchange Commission (SEC), making it mandatory for all publicly traded businesses to publish standardized reports of their emissions and climate risk. [Read more](#)
