Pathways Learning Styles

Face-2-Face: Learn with your peers in an interactive and experiential setting. Our new classes empower learners through practical application of real-life tasks while tapping into the experience of both peers and an NIGP-certified facilitator.

Virtual Instructor-Led: This instructor-led virtual course environment promotes peer-to-peer interaction with a cohort over a two-week schedule. Learners explore course concepts and actions through required assignments and exercises, collaborating with peer learners through discussion forums to promote a collaborative, distance-based learning environment.

On-Demand: Learn on your schedule. On-demand training is for professionals who prefer to develop the skills they need on their time and at their pace. Learners can start, stop and rewind the lessons at your convenience.

Please note this is a preliminary schedule. We may adjust content and dates as needed over the weeks and months to come. For the most accurate information please visit our Pathways website: **nigp.org/Pathways**
