

KIM ABREGO, PT, DPT

As President of Disaster Recovery Services, LLC, Kim specializes in the platform development and supplier coordination aspects of complex disaster recovery services for public entities. Kim's focus is on the strategic placement of risk preparedness, disaster remediation and restoration, debris removal, and claims recovery services, among others, with public entities to optimize reimbursement throughout all phases of disaster recovery and via all available funding sources, including FEMA's Public Assistance program. Kim holds 18 years of experience in providing project claim coordination, data management, business development, and marketing coordination within the disaster recovery arena, supporting the restoration of operations and the preparation and review of damages claims and insurance valuations for those suffering from complex disaster events.
