BUILDING KNOWLEDGE: BACKGROUND RESEARCH & STREET EVALUATION
- Know the costs of car-oriented streets and the benefits of putting people first. See Chapter 1
- Define a clear location to focus your efforts. See page 58 in Chapter 3
- Conduct research, considering street types and functions, as well as the surrounding conditions and circumstances. See pages 55, 57, and 58 in Chapter 3
- Perform street evaluations. See pages 58-60 in Chapter 3

BUILDING PARTNERSHIPS: STAKEHOLDER IDENTIFICATION & ENGAGEMENT
- Make a thorough list of potential stakeholders. See page 62 in Chapter 3
- Do your homework about different stakeholders before community outreach, engagement, and conversations. See pages 64, 66, and 68 in Chapter 3
- Hold everyone accountable to certain principles of collaboration. See page 63 in Chapter 3

BUILDING A PLAN: VISION ALIGNMENT & IMPLEMENTATION
- Are there other types of goals or visions for the places near your district?
- If yes, think about how you could align your street vision with these.
- If no, make sure you develop a guiding vision for your street improvement plans. See page 71 in Chapter 3
- Seek successful examples to inspire your plans. See Chapter 2
- Identify tasks, funding, and partnerships that will help accomplish each phase of implementation. See page 52 in Chapter 2 and page 73 in Chapter 3

THINKING LONG TERM: ONGOING EVALUATION, RELATIONSHIP MANAGEMENT & PLACE MANAGEMENT
- Revisit your research methods and street assessments to design an evaluation plan for the progress of your implementations. See page 60 in Chapter 3
- Revisit your engagement strategies and plan to strengthen and formalize partnerships. See page 70 in Chapter 3
- Incorporate a place management plan into your work. See page 74 in Chapter 3
- Celebrate and thank your partners regularly! Doing an in-depth community engagement and street revitalization process is something to be proud of!
