RenalEdge GPO Welcomes R5 Cost Reduction as a New Vendor Partner

GPO Members Gain Access to Cost Reduction Expertise Across Indirect Spend Categories

RenalEdge GPO is pleased to announce a new vendor partnership with R5 Cost Reduction, a consulting firm that helps multi-location, middle-market organizations uncover and recapture savings hidden within their indirect spend. Through this partnership, RenalEdge GPO members gain access to R5's cost reduction expertise across a wide range of indirect spend categories, helping providers improve operational efficiency and strengthen financial performance.

R5 Cost Reduction partners with CFOs and finance leaders to identify measurable savings opportunities across medical supplies, bank fees, medical waste, laundry and linen, payroll services, telecom and wireless, merchant processing, utilities, waste management, shipping, and property taxes. Their process is designed to minimize client workload while maximizing savings through vendor benchmarking, contract analysis, and direct negotiations with incumbent suppliers.

"We're excited to partner with RenalEdge GPO to help dialysis providers uncover meaningful savings opportunities that often go unnoticed," said Matt Cauller, CEO, R5 Cost Reduction. "Our approach is built around aligning incentives with our clients and delivering measurable financial improvements without disrupting existing vendor relationships."

R5 brings targeted experience, reducing the operational costs that can quietly erode margins, including medical consumables, regulated medical waste, linen programs, payroll processing, and communications infrastructure.

Additional information about this partnership, including enrollment details, will be shared on the RenalEdge website. To learn more, visit www.RenalEdge.com.

About R5 Cost Reduction

R5 Cost Reduction helps multi-location, middle-market organizations uncover and recapture savings hidden inside their indirect spend. Working on a pure contingency basis, R5 aligns its success with the client by collecting a share of verified savings only after savings are realized. <https://www.aboutr5.com/>
