ABOUT NSBA

Founded in 1940, the National School Boards Association's (NSBA) purpose is to ensure each student everywhere has access to excellent and equitable public education governed by high-performing school board leaders and supported by the community.

With members spread across the United States, the Virgin Islands, and Canada, NSBA is the only national organization representing school boards. Along with its member state associations and member public school districts representing locally elected school board officials serving millions of public school students, NSBA believes that public education is a civil right necessary to the dignity and freedom of the American people and that each child, regardless of their ability, ethnicity, socioeconomic status, identity, or citizenship, deserves equitable access to an education that maximizes their individual potential.
