

## State News for NSPE Members

### Welcome to WYSPE: Rob Armstrong from Casper, Casey Brauchie from Casper, and Garret Martin from Cheyenne!

Numerous WYSPE volunteers from around the state are beginning preparations for the annual MATHCOUNTS Competition. MATHCOUNTS was founded in 1983 and is a nationwide program for students in grades 6-8. The chapter competitions will be held at five locations around the state in February, and the state competition will be in March at UW. If you are interested in volunteering, coaching a team, or donating money contact Jeff Anderson ([janderso@uwyo.edu](mailto:janderso@uwyo.edu) or 307-766-3180) and he can direct you to more information, the local coordinator in your area, or how to help at the state competition.

Plan to attend our annual meeting during the Annual Convention of the Wyoming Engineering Society held in Cheyenne in February. We are excited to announce that NSPE President David Martini, P.E., F.NSPE is scheduled to attend and will be making a presentation during the convention.

### Honor Your Fellow PEs

NSPE is filled with members who exhibit the best of the profession. Take the time to recognize the contributions and achievements of a fellow PE with an NSPE Honor Award.

Submit applications by **January 31** so all deserving candidates can be considered for the

- **NSPE Award** —the highest award given by the Society. It is presented to an engineer who has made outstanding contributions to the engineering profession, the public welfare, and humankind;
- **Distinguished Service Award** —recognizes a licensed member for exceptional contributions to the profession, to one's community, and specifically to NSPE;

- [Young Engineer of the Year Award](#)—recognizes a young NSPE member who has made outstanding contributions to the profession and the community.

## Now Available: Commentary on Construction Documents

The Engineers Joint Contract Documents Committee—a joint venture of NSPE, the American Council of Engineering Companies, and the American Society of Civil Engineers—recently released [commentary on its 2018 construction documents](#). EJCDC documents are the first choice, and most user-friendly, among standard documents for infrastructure and public works construction in the United States.

EJCDC documents are available to NSPE members at a 50% discount.

*C-001 Commentary on the 2018 EJCDC Construction Documents*, at 184 pages, contains in-depth descriptions of each of the 25 documents in the EJCDC construction series and explains their use. The commentary includes definitions of terms, cross-references and abbreviations, and a detailed discussion of terms and conditions.

The EJCDC construction series of documents assumes the design engineer is involved during construction. C-001 explains how to use each document in the series during the process. There is also a discussion of the *Contractor for Construction of a Small Project* document and its use.
