

State News for NSPE Members

The unknown costs of a 100% carbon-free future

Six states enacted ambitious laws requiring them to be at or near 100% renewables and zero emissions by mid-century.

Opponents claimed mandates in Hawaii, California, Washington, Colorado, New Mexico and New York would drive up electricity rates, but ample evidence in today's falling renewables prices led to lawmaker approval. Now, utilities and policymakers are trying to determine what the full costs of a high renewables power system will ultimately be.

Advocacy Campaign a Success—But More Action Needed

 **Trish Hatley** @triciahatley - Aug 7. Met with Senator Inhofe's field rep @BrysonPanas this morning in our @FreeseNichols office to talk about the need to reduce licensure exemptions and how PE's help protect the public health, safety and welfare. #LicensedPEday #PEDayAdvocate

More than 100 NSPE members either met with or called their legislators and staffers on August 7 as part of the Society's Professional Engineers Day advocacy campaign. It was the largest such campaign in remembered NSPE history. PEs joined together to speak up for the importance of licensure and passage of a federal bill that would require PE oversight of utility pipelines, following the 2018 Merrimack Valley, Massachusetts, gas line explosion.

NSPE's Manager of Government Relations and Advocacy Stephanie Hamilton called the day "a strong success" as enthusiastic NSPE members worked to build lasting relationships that will help them be seen as experts on licensure and technical matters now and in the future.

However, the week before the campaign, the Senate version of the bill was added as an amendment to a larger pipeline safety bill and watered down to remove the PE requirement. According to Hamilton, the Society was "disappointed" and "dismayed" about this change to the Leonel Rondon Pipeline Safety Act, named after the teenager killed.

It's not too late to make a difference, however. NSPE members are urged to contact their legislators.

2019 Fall Webinar Series Open for Registration

Register now for the [2019 Fall Webinar Series](#) ! Develop your skills and earn continuing education credits this fall. Stay current on a variety of topics from the comfort of your home or office. Don't miss NSPE Deputy Executive Director and General Counsel Arthur Schwartz's Ethics Forum each month—register for individual webinars or [get a special bundle price](#) until **September 17**.

Sign up now for these webinars:

- [Ethics Forum: Conflicts of Interest - Employers and Clients](#)
September 18
- [Leading Project Teams: Emerging Technologies and Smart Design](#)
September 25
- [Mindfulness in Action](#)
October 2
- [Ethics Forum: Conflicts of Interest - Vendors and Colleagues](#)
October 16
- [Clients are from Venus, Consultants from Mars: A Guide to Effective Management of Consultants](#)
November 6
- [Ethics Forum: Conflicts of Interest - Serving the Public](#)
November 13

And don't forget that, as part of your NSPE membership, you also receive access to [15 free online seminars](#) .

Find Quality Candidates or a Great New Job

NSPE's online event for employers and job seekers will take place again on **October 2** from 11 am – 3 pm Eastern.

Whether you're an engineer just starting out or an experienced professional looking for a new opportunity, you can connect with employers from the comfort of your home, office, smartphone, or tablet. The event is free for job seekers.

Companies in search of top talent will be able to access professionals representing all engineering sectors around the country.
