Norwich Receives Estate Gift of $3M From Longtime Engineering Professor, Don Wallace

Norwich University President Richard W. Schneider announced to trustees on Thursday, April 25, that Professor Emeritus Don Wallace, who retired in 2017 after over five decades of teaching in Norwich's Mechanical Engineering Department and passed away in November 2018, left in his will over $3 million to the David Crawford School of Engineering (DCSE).

Schneider told trustees that a David Crawford School of Engineering endowment has been created to fund The Donald Wallace Visiting Professor Chair in Engineering; work will begin on renovating and updating what will be called the Donald M. Wallace Materials Testing Laboratory in the basement of Juckett Hall; and a scholarship fund for deserving juniors and seniors has been established.

Advance Your Engineering Career at PECON19

The ability to manage projects and lead teams is crucial to advancing your career as a professional engineer. Even if you have years of experience in the field, there are still opportunities to enhance your knowledge. The PE Conference includes an entire track of leadership and risk management sessions to give you the tools, resources, and best practices to further your career.
PE Conference sessions include

- Engineering Ethics and the Law;
- How to be an Effective Witness;
- How to Lead Without Authority;
- Managing Project Risk;
- How Not to Fail as a Leader;
- Passing Down Institutional Knowledge.

Visit the PE Conference website for a full listing, including descriptions, of these and other sessions designed exclusively for PEs. Register today!

**A One-Stop Shop for Continuing Education**

Stay current with essential professional development opportunities through NSPE webinars. Members receive a special rate on the upcoming live webinars:

**Providing Feedback at Work: The STEER Methodology**

**May 22** at 2 p.m. Eastern

What if you could find better ways to get your staff to act with more proficiency? The results for your business would be significant. Happier customers. More satisfied co-workers. And, you would be relieved of some sources of stress.

This presentation on providing feedback in the workplace suggests tools that you can use to give more effective feedback to your colleagues and other personnel. STEER is an acronym that represents five main elements of feedback: specificity, timing, explanation, emotion, and reinforcement.

**NICET: Developing a Qualified Workforce**

**May 29** at 2 p.m. Eastern

Through credentialing with the National Institute for Certification in Engineering Technologies (NICET), professionals in engineering technologies can set themselves apart as the most exceptional technicians in their field.
Join NICET’s Chip Hollis as he discusses the ways in which credentialed technicians earn certifications to further their careers, earn the respect and confidence of employers, and continue to safeguard the public.
