

## State News for NSPE Members

### Corps Calls for Further Study of Dam

“The U.S. Army Corps of Engineers wants to take 3½ additional years and spend an extra \$6 million to study the proposed Darlington Dry Dam and better assess the risk of catastrophic failure and its impact on minority communities and archaeological sites,” [according to the Advocate](#). The proposed \$1.3 billion dam would reduce flooding of the Amite River Basin, but the project comes with significant life and safety issues as well as environmental justice and archaeological concerns.

---

### Members Contribute to Licensing Board

NSPE member Linda Bergeron, P.E., of Des Allemands, has been named as a new board member of LAPELS. She is a senior process engineer at Occidental Chemical Corporation, and she is a Chemical PE Exam development volunteer with NCEES.

NSPE member Alan Krouse, P.E., has left the LAPELS board after completing his six-year term.

### LNG Facility in Plaquemines Moves Forward

KBR Inc. has won the engineering, procurement and construction contract as lead contractor for Phase 1 of the Plaquemines LNG export project under development by Venture Global LNG in Plaquemines Parish, [according to the 10/12 Industry Report](#). The announcement comes as a surprise. Over the summer, KBR said it would [leave the energy business](#) to focus on its technology and government solutions segments. In June, Reuters reported, “If Venture Global goes forward with Plaquemines this year, it could be the only U.S. LNG project to enter construction in 2020 after most other developers delayed their projects as coronavirus lockdowns cut global demand for energy and caused gas prices in

Europe and Asia to drop to record lows.”

Stay up to date on legislative issues through the [NSPE Advocacy Center](#).

## NSPE Government Relations Staff Releases 2020 Advocacy Report

NSPE’s Government Relations staff has released its year-end report—**By the Numbers**—a semi-deep dive into how advocacy campaigns performed, which issues staff tracked and how often, and which members of Congress were most and least supportive of NSPE issues.

The report provides summaries of lessons learned and establishes best practices. It also draws some fact-based conclusions on who are NSPE allies on the Hill, and which offices need a little more prompting before they get on board. It’s an excellent capstone to an unexpected and difficult, but ultimately successful year!

## Education Foundation Celebrates 60 Years of Giving Back

For 60 years, the NSPE Education Foundation has been a major source of support for the educational and ethical practice needs of engineering students, engineering teachers, and practicing professionals.

This past year, the foundation gave out five scholarships to [deserving engineering students](#) and supported young professionals in NSPE’s [Emerging Leaders Program](#). In the coming year, the foundation will explore additional programs to broaden its reach and impact, and NSPE member support will mean more than ever before.

In this season of giving, and in honor of the NSPE Education Foundation’s 60th anniversary, a donation of \$60 will help further its mission to support students,

educators, young professionals, and the profession at large.

## **EJCDC Releases New Owner and Engineer Task Order Docs**

The Engineers Joint Contract Documents Committee has released a new document: [EJCDC E-505 2020, Agreement Between Owner and Engineer for Professional Services—Task Order Edition](#) . This document is available to NSPE members at a 50% discount.

EJCDC E-505 defines individual task orders for specific professional assignments. In a task order, the owner and engineer agree to task-specific terms, such as scope of services, schedule, and compensation, for each specific assignment. When a task order is issued, no drafting or negotiating is needed for provisions such as indemnification, insurance, claims, dispute resolution, suspension, or termination because these provisions will have been negotiated previously and set in place in the E-505 Main Agreement and its exhibits.

The E-505 is designed for multiple or recurring assignments (“tasks”) related to one or several projects; it is similar to the E-500 Agreement Between Owner-Engineer for Professional Services in structure, terminology, and conditions. Updates to the EJCDC E-505 include enhanced and reorganized exhibits to the E-505 main agreement and task order form to reflect evolving contract practice and improve ease of use. This edition is published in four parts, which are included in a downloadable zip file.

## **It’s Not Too Late: Get Your 15 Free PDHs for 2020**

Act now to take advantage of the annual NSPE membership benefit of 15 free PDHs. Access to the [2020 lineup of courses](#) will end after **December 31**.

Members may earn credits by viewing the webinars from the comfort of their home or office and will receive an attendance certificate after passing a quiz with a score of 70% or higher. PDHs from these courses are recognized by most US states, including Florida.

Don't have time to view the 15 free courses before December 31? Simply "purchase" the webinars by December 31 and add them to your NSPE member account. That way you can view them when you are ready. Webinars in your account can be accessed for up to one year.

Here's a sample of available webinar topics:

- [Engineering Ethics: The obligation to conduct themselves honorably, responsibly, ethically and lawfully](#)
- [Drones: The Sky's the Limit](#)
- [How Not to Fail as a Leader](#)
- [Professional Engineer's Role on Application of Artificial Intelligence and Technology](#)
- [Texts and Emails That Fuel Engineering Success](#)

Act now to access the [2020 free courses](#) .
