Mississippi Issues RFP for Solar Power

The utility Mississippi Power has issued a request for proposal for approximately 200 megawatts of solar photovoltaic projects. According to the RFP, the utility requires that proposals include a 25-year energy-only power purchase agreement. Projects must be within the state of Mississippi. Applications are due March 15, 2022.

State Invests Millions in Site Development to Facilitate New Business

The state of Mississippi is investing $25 million in site development, Governor Tate Reeves announced in early February. The grant funds were made available through the Mississippi Development Authority, Appalachian Regional Commission and the RESTORE Act to assist local economic development entities in their efforts to spur economic growth, according to an article by the AP.

Sites are designated into three funding levels: Select, premier, and ready sites. The designation depends on their size and capacity, and they are awarded grant funds accordingly.

“By investing in these sites today, we are laying a foundation upon which companies can quickly locate, expand, and create jobs for future generations of Mississipians,” Reeves said.

Virtual Federal Engineer of the Year Award Ceremony
The 2022 Federal Engineer of the Year Award winner will be announced on February 24 (noon) during a virtual awards event on NSPE’s website and YouTube channel. The Society recently announced the top 10 finalists who have made extensive contributions to their organizations and also to the public that PEs ultimately serve.

The Federal Engineer of the Year Award, sponsored by the Professional Engineers in Government, honors engineers employed by a federal agency with at least 50 engineers worldwide.

**Education Foundation Gifted $30,000 for Diversity Scholarship**

The [NSPE Education Foundation](https://www.nspe.org) is honored to announce a $30,000 donation from NSPE member Om P. Popli, P.E., P.L.S., the president and founder of Popli Design Group in Penfield, New York. This generous donation will establish a new scholarship to promote diversity in the profession by encouraging and supporting minority female students pursuing an engineering degree.

The *Swadesh and Om P. Popli, P.E., P.L.S. Scholarship* will be a multi-year scholarship, providing $5,000 each year for the recipient’s four-year education. Applicants must be a female high school senior from an ethnic minority pursuing a degree in engineering at an ABET-accredited program.

The scholarship recipient will be required to reconfirm eligibility at the beginning of each year of study via a minimum GPA and proof of enrollment. This requirement
not only establishes eligibility each year, but also serves as a continual “touch point” for the Education Foundation and the student, allowing for additional support and relationship-building throughout the student’s academic career.

**Supporting the Future of the Profession**
The NSPE Education Foundation is dedicated to fostering the next generation of engineering talent through its scholarship program. This new scholarship is a generous addition to other Education Foundation scholarships focused on creating a diverse profession. It also reaffirms the commitment of NSPE, the Education Foundation, and NSPE members to promoting diversity and tomorrow’s engineer.

A new **online submission platform** for the 2022 scholarships is now live. All applications must go through this platform for consideration. Students can apply for the following scholarships by **April 1**:

The **Maureen L. and Howard N. Blitman, P.E., Scholarship to Promote Diversity in Engineering** is awarded annually to a high school senior from an ethnic minority who has been accepted into an ABET-accredited engineering program at a four-year college or university.

The **Auxiliary Legacy Scholarship** is awarded annually to a female undergraduate entering or continuing their junior year of a four-year ABET-accredited engineering program.

The **Steinman Scholarship** is awarded annually to undergraduates entering or continuing their junior year in a four-year ABET-accredited engineering program.

The **George B. Hightower, P.E. Fellowship** is awarded annually to a current engineering undergraduate or graduate student who is enrolled in, or graduated from, an ABET-accredited engineering program.
Reimagining the Possible During EWeek

As a member of the DiscoverE coalition, NSPE’s mission includes outreach to young students and a call to engage, educate, and inspire more children and young adults to consider a career in engineering.

Visit NSPE’s Engineers Week web page for information and links to all of the various programs happening for this year’s celebration. This page also provides access to downloadable resources for individuals, state societies, and chapters to assist in planning and promoting events. Some of these items include program logos, ads, printable posters, and an Engineers Week Zoom background featuring the NSPE and DiscoverE logos.

NSPE will also be featuring women members/engineers on its social media channels to celebrate Girl Day (Introduce a Girl to Engineering Day) on February 24. This event is an excellent way to highlight the work and voices of female PEs to highlight them as role models for girls interested in engineering as a career. If you know of any women engineers who would be good to feature, please contact Stacey Ober or Sean Woods.
