

Innovation Day for Future Engineers

More than 100 students interested in engineering competed in Boca Raton for Innovation Day.

The high school students showed off their engineering capabilities by designing and building gadgets. Several students won awards for their creations. The teens were from several schools from Miami-Dade, Broward and Palm Beach counties.

Michelle Murray the STEM teacher at Scheck Hillel Community School said, "The whole idea of engineering competition is to allow students to have a better feel for how to understand engineering while they are in high school with possibly pursuing when they go to college."

Advance Your Engineering Career at PECON19

The ability to manage projects and lead teams is crucial to advancing your career as a professional engineer. Even if you have years of experience in the field, there are still opportunities to enhance your knowledge. The PE Conference includes an entire track of leadership and risk management sessions to give you the tools, resources, and best practices to further your career.

PE Conference sessions include

- [Engineering Ethics and the Law;](#)
- [How to be an Effective Witness;](#)
- [How to Lead Without Authority;](#)

- [Managing Project Risk](#);
- [How Not to Fail as a Leader](#);
- [Passing Down Institutional Knowledge](#).

Visit the [PE Conference website](#) for a full listing, including descriptions, of these and other sessions designed exclusively for PEs. [Register today](#) !

[Providing Feedback at Work: The STEER Methodology](#)

May 22 at 2 p.m. Eastern

What if you could find better ways to get your staff to act with more proficiency? The results for your business would be significant. Happier customers. More satisfied co-workers. And, you would be relieved of some sources of stress.

This presentation on providing feedback in the workplace suggests tools that you can use to give more effective feedback to your colleagues and other personnel. STEER is an acronym that represents five main elements of feedback: specificity, timing, explanation, emotion, and reinforcement.

[NICET: Developing a Qualified Workforce](#)

May 29 at 2 p.m. Eastern

Through credentialing with the National Institute for Certification in Engineering Technologies (NICET), professionals in engineering technologies can set themselves apart as the most exceptional technicians in their field.

Join NICET's Chip Hollis as he discusses the ways in which credentialed technicians earn certifications to further their careers, earn the respect and confidence of employers, and continue to safeguard the public.
