2020 Federal Engineer of the Year Award Winner Announced in D.C.

Timothy Sullivan, Ph.D., P.E., of the U.S. Department of the Air Force, Air Force Civil Engineer Center, was named NSPE's 2020 Federal Engineer of the Year Award winner on February 14 at the ceremony at the National Press Club in Washington, DC.

The Federal Engineer of the Year Award, sponsored by the Professional Engineers in Government, honors engineers employed by a federal agency that employs at least 50 engineers worldwide.

Learn About NSPE's New Strategic Plan

Join NSPE Executive Director Mark Golden as he [shares NSPE's recent strategic planning process](#) in a new animated video. The NSPE Strategic Plan—including our vision, mission, values, and goals—is developed by the NSPE Board of Directors in collaboration with NSPE's representative House of Delegates. It is not a static document. Rather, it is a commitment to ongoing, open, and transparent strategic planning and execution.

Diversity, Equity, and Inclusion and NSPE

Diversity is a major theme in [NSPE's Strategic Plan](#) , and it recently gained a place in the [NSPE Code of Ethics](#) . For any future-focused, proactive profession or professional society, diversity is increasingly a strategic imperative. But there needs to be an acknowledgement of the missed opportunities created by the biases in our personal, professional, and societal lives.

Can You Meet the 2020 Ethics Challenge?

How should ethics factor into the development of artificial intelligence or in guiding the future of the profession? These are just two of the issues that professional engineers and engineering students can address in this year's [NSPE Milton F. Lunch Ethics Contest](#).

NSPE members can participate through their state societies and local chapters (including student chapters). State societies and local chapters are encouraged to consider using this contest as a state or chapter activity to generate member discussion and spur greater interest in engineering ethics.

Participants can select from one of four issues to develop a submission (video, photo essay, poster, essay, or PowerPoint presentation) that demonstrates an understanding of the ethical issues involved. Participants are encouraged (but not required) to consider and cite in the submission the [NSPE Code of Ethics](#) and previous NSPE Board of Ethical Review opinions.

NSPE will award the author of the winning entry \$2,000, a certificate, and recognition in *PE* magazine. All submissions must be received by **April 20**.

Boost Your Professionalism With These Upcoming Webinars!

Develop your skills and earn continuing education credits with NSPE's webinars. Stay current on a variety of topics from the comfort of your home or office. Don't miss the Ethics Forum each month, presented by NSPE Deputy Executive Director and General Counsel Arthur Schwartz. Register for individual ethics webinars or [get a special bundle price](#) until **March 17**. All webinars are held 2 p.m. – 3 p.m. Eastern.
