### **RISPE Engineer of the Year Award Announced**

Since 1958, RISPE has annually recognized a local engineer who has made outstanding contributions to both the engineering profession and their community by honoring them as the RISPE Engineer of the Year. The award recognizes an individual's dedication to the highest ethical standards of the engineering profession, the technical excellence of their work, their deep concern for the public welfare, and their enthusiastic leadership amongst their peers.

This year, RISPE is excited to present this prestigious award to Mr. Ronald Daignault, PE. Ron is well-known in the engineering community, and has earned the respect of his peers with good reason: his commitment to his profession, country, and community set a strong example for others to follow. His career and volunteerism embody the ideals of professionalism and citizenship.

### **RISPE Scholarship Applications Due March 27, 2020**

Each year the Rhode Island Society of Professional Engineers awards \$500 scholarships to local high school seniors interested in pursuing an engineering degree in college.

The scholarship application period for 2019–20 has begun and we will award the scholarships for this year at our May 2020 Dinner Meeting.

If you are interested in applying for the Rhode Island Society of Professional Engineers (RISPE) Scholarship, visit the [RISPE web site](#) for more information.

### **Learn About NSPE's New Strategic Plan**

Join NSPE Executive Director Mark Golden as he [shares NSPE's recent strategic planning process](#) in a new animated video. The NSPE Strategic Plan—including our vision, mission, values, and goals—is developed by the NSPE Board of Directors in collaboration with NSPE's representative House of Delegates. It is not a static document. Rather, it is a commitment to ongoing, open, and transparent strategic planning and execution.

### **Diversity, Equity, and Inclusion and NSPE**

Diversity is a major theme in [NSPE's Strategic Plan](#), and it recently gained a place in the [NSPE Code of Ethics](#). For any future-focused, proactive profession or professional society, diversity is increasingly a strategic imperative. But there needs to be an acknowledgement of the missed opportunities created by the biases in our personal, professional, and societal lives.

## **Can You Meet the 2020 Ethics Challenge?**

How should ethics factor into the development of artificial intelligence or in guiding the future of the profession? These are just two of the issues that professional engineers and engineering students can address in this year's [NSPE Milton F. Lunch](#)

## Ethics Contest.

NSPE members can participate through their state societies and local chapters (including student chapters). State societies and local chapters are encouraged to consider using this contest as a state or chapter activity to generate member discussion and spur greater interest in engineering ethics.

Participants can select from one of four issues to develop a submission (video, photo essay, poster, essay, or PowerPoint presentation) that demonstrates an understanding of the ethical issues involved. Participants are encouraged (but not required) to consider and cite in the submission the [NSPE Code of Ethics](#) and previous NSPE Board of Ethical Review opinions.

NSPE will award the author of the winning entry \$2,000, a certificate, and recognition in *PE* magazine. All submissions must be received by **April 20**.
