

State News for NSPE Members

Coalition Calls for Rhode Island to Transition to Clean Energy Economy

A new report by the Climate Jobs Rhode Island coalition and researchers from Cornell recommends actions to address climate change, the pandemic, and inequality within the state, [the Boston Globe reports](#).

The coalition recommends utilizing wind energy, "decarbonizing" schools, building 35,000 affordable "net zero" housing units by 2035, and modernizing the state's electrical grid. The report also advocates for the creation of a wage board to set a minimum wage for the renewable energy industry. Read the report [here](#).

Mystic Aquarium Will Educate Middle Schoolers This Spring

Funded by a mini grant from the National Oceanic and Atmospheric Administration, Mystic Aquarium's Ocean Exploration Adventure will advance ocean exploration educational opportunities for 200 underserved eighth grade students and educators from two majority-minority middle schools in Cranston, Rhode Island.

STEAM educators will participate in online and in-person professional development in partnership with NOAA Ocean Exploration and implement ocean exploration activities with their students. Live events with diverse career role models and field trips to explore Narragansett Bay, the University of Rhode Island's Inner Space Center, and Mystic Aquarium's Marine National Monument exhibit will round out the student experience this spring.

NSPE's Job Board is your one-stop resource for professional engineering employment. Whether you are on the hunt for your next career move or looking for today's top engineering leaders and talent, you will find it here.

NSPE provides the tools PEs need to keep current in the profession and advance their careers.

Virtual Federal Engineer of the Year Award Ceremony

The 2022 Federal Engineer of the Year Award winner will be announced on February 24 (noon) during a virtual awards event on NSPE's website and [YouTube](#)

channel. The Society recently announced the [top 10 finalists](#) who have made extensive contributions to their organizations and also to the public that PEs ultimately serve.

The Federal Engineer of the Year Award, sponsored by the Professional Engineers in Government, honors engineers employed by a federal agency with at least 50 engineers worldwide.

Education Foundation Gifted \$30,000 for Diversity Scholarship

The [NSPE Education Foundation](#) is honored to announce a \$30,000 donation from NSPE member Om P. Popli, P.E., PLS, the president and founder of Popli Design Group in Penfield, New York. This generous donation will establish a new scholarship to promote diversity in the profession by encouraging and supporting minority female students pursuing an engineering degree.

The *Swadesh and Om P. Popli, P.E., P.L.S. Scholarship* will be a multi-year scholarship, providing \$5,000 each year for the recipient's four-year education. Applicants must be a female high school senior from an ethnic minority pursuing a degree in engineering at an ABET-accredited program.

The scholarship recipient will be required to reconfirm eligibility at the beginning of each year of study via a minimum GPA and proof of enrollment. This requirement not only establishes eligibility each year, but also serves as a continual "touch point" for the Education Foundation and the student, allowing for additional support and relationship-building throughout the student's academic career.

Supporting the Future of the Profession

The NSPE Education Foundation is dedicated to fostering the next generation of engineering talent through its scholarship program. This new scholarship is a generous addition to other Education Foundation scholarships focused on creating a diverse profession. It also reaffirms the commitment of NSPE, the Education Foundation, and NSPE members to promoting diversity and tomorrow's engineer.

A new [online submission platform](#) for the 2022 scholarships is now live. All applications must go through this platform for consideration. Students can apply for the following scholarships by **April 1**:

The [Maureen L. and Howard N. Blitman, P.E., Scholarship to Promote Diversity in Engineering](#) is awarded annually to a high school senior from an ethnic minority who has been accepted into an ABET-accredited engineering program at a four-year college or university.

The [Auxiliary Legacy Scholarship](#) is awarded annually to a female undergraduate entering or continuing their junior year of a four-year ABET-accredited engineering program.

The [Steinman Scholarship](#) is awarded annually to undergraduates entering or continuing their junior year in a four-year ABET-accredited engineering program.

The [George B. Hightower, P.E. Fellowship](#) is awarded annually to a current engineering undergraduate or graduate student who is enrolled in, or graduated from, an ABET-accredited engineering program.

Reimagining the Possible During EWeek

As a member of the DiscoverE coalition, NSPE's mission includes outreach to young students and a call to engage, educate, and inspire more children and young adults to consider a career in engineering.

Visit NSPE's Engineers Week [web page](#) for information and links to all of the various programs happening for this year's celebration. This page also provides access to downloadable resources for individuals, state societies, and chapters to assist in planning and promoting events. Some of these items include program logos, ads, printable posters, and an Engineers Week Zoom background featuring the NSPE and DiscoverE logos.

NSPE will also be featuring women members/engineers on its social media channels to celebrate Girl Day ([Introduce a Girl to Engineering Day](#)) on February 24. This event is an excellent way to highlight the work and voices of female PEs to highlight them as role models for girls interested in engineering as a career. If you

know of any women engineers who would be good to feature, please contact [Stacey Ober](#) or [Sean Woods](#).
