## From Theory to Practice: Integration of Functional Medicine and Systems Thinking into Nursing and Allied Health Education

**We Welcome:** Nurses and other healthcare professionals who want to learn about integrating functional medicine principles.

**Course Description:** Come network with Tau Tau and receive free CE:

The purpose of this education is to enhance nurses' understanding of Functional Medicine and systems of thinking and their application in nursing education and practice. Participants will explore core principles of Functional Medicine, distinguish it from traditional disease-centered care, and learn about Nebraska Methodist College's partnership with the Institute for Functional Medicine. The activity will also highlight curricular integration strategies and opportunities to apply Functional Medicine concepts to support holistic, evidence-based patient-centered care.

**Course Date & Time:** Tuesday, February 10, 2026, 5:00pm-7:00pm

Registration Deadline: Tuesday, February 3, 2026

**Locations:** Live: Nebraska Methodist College, Clark Room 3218, 720 N. 87 Street, Omaha, NE 68114.

Webinar: available on TEAMS (details will be emailed to you after you register)

**Value: \$40, Cost: \$0** for all registrants (use code JP100)

**Continuing Education:** Nursing: 1.0 contact hours awarded. VTL Center for Professional Development Approved Provider #NE1028-5. Nebraska Methodist College Learning Center is approved as a provider of nursing continuing professional development by the VTL Center for Professional Development, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
