The Trans/Gender-Variant Caucus of NWSA welcomes papers and proposals for panels, roundtables, lightning sessions, workshops, or any other creative format for the 2024 annual conference on (re)thinking feminist movements. We are seeking to organize a sponsored panel, roundtable, or workshop, as well as additional sessions that address the themes of this year’s conference with orientation toward the field of trans and gender-variant research. (The full NWSA 2024 CFP can be found here.) The caucus will review all papers submitted to the Trans/Gender-Variant Caucus. We seek to accommodate as many qualified papers, panels, and workshops as possible; however, NWSA will make the final decision about which panels are accepted into the conference. Presenters accepted into the conference program must become members of NWSA in addition to registering for the conference (a sliding scale is used in determining the cost of membership and registration).

All submitted proposals need to address the central theme of the conference which is "the journey not only the arrival, critical connections not only critical mass: (re)thinking feminist movements." This year, in accordance with the theme, we are especially interested in papers that address tensions in or between trans movements and feminist or queer movements, including tensions in or between the fields of trans studies and women's studies, feminist studies, or queer theory, as they appear in a domestic or global context. Sub themes for the conference include:

- The State of the Field
- Imperialism, War, and Occupation
- Transnational Feminisms
- Decolonial Theory and Praxis
- Work, Labor, and Class

If you are interested in being a part of the 2024 Trans/Gender-Variant Caucus submission cycle for NWSA, please fill out this form by March 17, 2024. The earlier caucus deadline gives us the necessary time to organize the submissions.
into panels and submit them as full panels. All submissions are due to NWSA by April 1, 2024.

Please direct general questions to nwsatranscaucus@gmail.com.

As a reminder, just because there is a specific sub theme for queer and trans studies does not limit trans / gender variant research to just that sub category. You’re welcome to submit under any subtheme you would like. If you submit a Trans Studies related paper or panel on your own, please tag it with the keyword ‘trans studies,’ as a way to support trans/gender variant related research at NWSA.
