

Sarah Mills

Senior Director, JD Edwards Managed Services, Syntax

Despite holding a Bachelor of Arts – English degree, Sarah has over 16 years of JD Edwards technical and management experience. During a recent M&A, she combined two similar technical teams from two merging organizations into a single team of more than 50 JD Edwards Managed Services resources at Syntax, spanning technical, database, development, and application support.

Sarah subscribes to four guiding principles for her team – curiosity, transparency, simplicity, and humility – and she strives to live out those requirements in her own professional life. She believes strongly that the most successful technical teams are led by passionate, engaged leaders who focus on developing passionate, engaged teams.

She has been very active with Quest, the JD Edwards customer user group, as a board member for both the HCM (Human Capital Management) SIG and Training SIG (special interest group).

This past January, she was awarded her employer's highest award, the Syntax Founder's Award for her dedication to the success of Syntax and Syntax's customers and the development and growth of her team and all the teams at Syntax.
