# Multiple Myeloma: Diagnosis, Treatment and Side Effect Management

## VIRTUAL EDUCATION

### WEBINAR

Link will be sent to registrants upon registration. An email is required to register. Pre-registration for this free program is required.

### SPEAKER

**DAPHNE FRIEDMAN, MD**  
Durham VA Medical Center  
Duke University Medical Center

### PROGRAM

**African Americans have roughly twice the incidence of myeloma as white Americans**, with recent studies finding that blacks are also less likely to receive the latest myeloma treatments or combination therapies, and more likely to encounter delays in receiving treatment, including transplants.

This is a free educational event for patients and families affected by multiple myeloma. Dr. Friedman will discuss the basics of myeloma including diagnosis and treatment, symptoms of myeloma, how myeloma progresses, and side effect management.

We encourage you to invite your caregiver and family members.

**THURSDAY**  
**SEPTEMBER 17, 2020**  
**4:00PM - 5:00PM**

**Welcome & Program**  
4:00p.m.

**Question & Answer**  
4:45p.m.
