## JEREMY JARRELL

### DIRECTOR OF PROGRAMMING

Jeremy Jarrell is a Product Management leader who helps early-stage startups discover and build products their customers love.

Jeremy works with pre-Seed through Series C startups to help them identify their customers and their needs, develop an adaptable product strategy, and execute on that strategy to launch industry-changing products into the market.

When not working with startups, Jeremy enjoys working closely with new ventures and burgeoning Product Managers as an advisor, mentor, and a coach.
