

Call for Papers

Annual Meeting, Population Association of America
Deadline for Submissions: September 26, 2021

We welcome your submissions for the PAA2022 annual meeting and look forward to a full and rigorous scientific conference next spring! PAA2022 sessions will be in-person.

Please note a few important items:

- All accepted presenters will be required to pre-register for the conference by February 7, 2022.
- Unfortunately, ***PAA cannot accommodate schedule requests***; if your paper or poster is accepted, it could be scheduled any time between Thursday, April 7 and Saturday, April 9.
- Please note that ***individuals can only serve as a presenting author twice on the program*** (but can have additional roles such as chair or discussant).
- ***Organizers will not review papers from authors with whom they have a conflict of interest*** (close collaborators or current students/postdocs). As such, please do not submit your abstract to someone with whom you may have a conflict of interest.

Thank you in advance for your submission; we are looking forward to a great annual meeting in 2022!

Sincerely,

Sonalde Desai and Jennifer Van Hook
PAA2022 Program Co-Chairs

Instructions for Submitting a Paper

Presenters, discussants, chairs and session organizers must register for the conference. **All presenting authors must pre-register for the conference by February 7, 2022 to confirm their intention to attend and present.** Members receive a preferred rate for annual meeting registration, and all participants are strongly encouraged to join. [Learn more about PAA membership online.](#)

Online submissions will be made through the MiraSmart software submission system. **Please use this link <https://submissions.mirasmart.com/PAA2022/Splash.aspx> (the link will be live on July 26, 2021).** Authors are asked to submit both: a) a short abstract (150 words); and b) either an extended abstract (2-4 pages, including tables) or a completed paper. You may modify your submissions at any time until September 26, 2021.

Extended abstracts must be sufficiently detailed to allow the session organizer to judge the merits of the paper. Typically, extended abstracts consist of a statement of the research question (and the underlying theory, if appropriate), the data and research methods, and preliminary findings. If your submission is accepted for a regular session, you must upload the full paper by March 16, 2022, to allow the discussant sufficient time to read it.

The PAA 2022 submission website will allow session organizers to view the titles and authors of submitted abstracts as they are submitted. The author making the submission must provide the full name, affiliation, country, and email address of each co-author. Please verify email addresses with co-authors to avoid duplicate records, and to make sure that all of the co-authors' submissions appear under the same record.

At the time of submission, if there are multiple co-authors, one must be identified as the author who will present the paper. (See below for specification of PAA's two-presenter rule.) This can be revised until the program is finalized; you will be informed of the deadline via email.

As in the past, all sessions are numbered. If you wish to have your abstract considered by two organizers, you must indicate the session numbers of your first and second choices. Two sessions is the limit. The first designated organizer is given first right of acceptance. No paper/abstract may be submitted to more than two sessions.

PAA 2022 will again have some flash sessions that will consist of two parts. First, there will be an oral "flash" presentation (4-6 minutes in length) of each paper. Second, authors will display posters with an informal discussion at each poster.

Submissions to either regular sessions or flash sessions can also be considered as candidates for a poster session. This option is offered during the online submission process.

In addition to the sessions listed in this Call for Papers, approximately 100 "overflow" sessions will be created at the request of session organizers who receive large numbers of submissions. In choosing where to submit your paper, keep in mind that session organizers with broad session titles may end up organizing two or three sessions.

Instructions for Submitting a Poster

Members are encouraged to submit abstracts/papers for consideration as posters. All the above instructions also apply to poster submissions. Authors who wish to have a submission considered *only* for a poster session should submit to Session 1602. This may be a particularly good option for

papers that do not fit into any regular or flash sessions.

An author who is submitting a paper to one or two regular sessions, or a regular session and a flash session, may ask that the submission also be considered for a poster session if it is not accepted in the regular or flash session. This is accomplished by checking “yes” in the appropriate box of the online submission form. Unless you check “yes,” your paper will not be considered for a poster.

Two-Presentations Rule

The PAA Board of Directors has instituted a two-presentations rule, i.e., each person is limited to a maximum of two presentations (summed across regular oral sessions, flash sessions and poster sessions). A further rule is a limit of four appearances in total, encompassing the roles of presenter, chair, and discussant. But there is no limit on how many times a person can appear on the program as a co-author. Single-authored papers must be presented by the author. For multiple-authored papers, at the time of submission a presenter must be designated; once all sessions are finalized (that is, all papers and posters have been accepted or rejected), there will be a short time interval when presenter status can be revised. Note that for the purpose of the two-presentations rule, the roles of chair and discussant do not count; instead, there is a limit of four presentations in the roles of presenter, chair, and discussant inclusive.

Important Dates*

July 26, 2021	PAA opens for submissions
September 26, 2021 (midnight EDT)	PAA closes to submissions
November 15-19, 2021	Authors are notified of papers accepted into regular and flash sessions
November 22-November 26, 2021	Authors are notified of papers accepted into overflow sessions
December 1, 2021	Pre-registration opens
December 6-10, 2021	Authors are notified of papers accepted into poster sessions
February 7, 2022	Deadline for presenting authors, chairs and discussants to pre-register
February 28, 2022	Deadline for making online revisions to abstracts of accepted papers
March 16, 2022	Deadline to upload full papers

*Dates subject to change. If you have questions, please contact bobbie@popassoc.org.

PAA 2022 Sessions and Organizers

To submit a paper to PAA 2022, please visit the submissions website at <https://submissions.miramart.com/PAA2022/Splash.aspx>. (Link will be live once submissions open.)

1. Aging and Life Course

101. Intergenerational Relationships and Well-being

Jeffrey Stokes
University of Massachusetts Boston

102. Cross-national Comparisons of Aging and the Life Course

Steven Haas
Pennsylvania State University

103. Social and Economic Consequences of Population Aging

Melissa Hardy
Pennsylvania State University

104. Caregiving Across the Life Course

Joan Kahn
University of Maryland

105. Social Networks, Social Relationships and Well-being Across the Life Course

Molly Copeland
Michigan State University

106. Work and Retirement Transitions in Later Life

Katsuya Oi
Northern Arizona University

107. Aging in Vulnerable Populations

Latrica Best
University of Louisville

108. Cognitive Health and Aging

Zhenmei Zhang
Michigan State University

109. Biological and Biodemographic Approaches to Aging

Jennifer Ailshire
University of Southern California

110. Policy Responses to Population Aging

Adriana Reyes
Cornell University

2. Applied Demography

201. Challenges Facing Small Area Forecasting and Estimation

Richelle Winkler
Michigan Technological University

202. Estimates and Projections of COVID-19 Pandemic-Induced Population Change

Sara Curran
University of Washington

203. Old Wine in New Bottles: Tools for Applied Demographers

Jack Baker
Farmers Insurance

3. Children, Youth and Intergenerational Ties

301. Transitions to Adulthood in Risky and Uncertain Contexts

Monica Grant
University of Wisconsin–Madison

302. Stability and Change in Family Contexts of Children and Youth

Monica Caudillo
University of Maryland

303. Inequality in Birth Outcomes and Early Childhood

Stephanie Mollborn
University of Colorado Boulder

304. Public Policy and Child Well-Being

Kelley Fong
Georgia Institute of Technology

305. Fertility Decline and Child Outcomes in Global Perspective

Fangqi Wen
Australian National University

306. Global Challenges of Immigrant Children and Youth

Andres Villarreal
University of California, Los Angeles

307. Transition to Adulthood of LGBTQI Youth in Global Perspective

Nicole Angotti
American University

308. Neighborhood Contexts and Early Life Course

Jennifer Candipan
Brown University

309. Flash: Children, Adolescents and Mental Health

Heili Pals
Texas A&M University

310. Flash: Climate Change and the Well-Being of Children and Youth

Jessie Pinchoff
Population Council

4. COVID-19

401. Flash: COVID-19 Data, Measures and Methods in Low and Middle Income Countries

Ayesha Mahmud
University of California, Berkeley

402. Social, Economic and Demographic Determinants and Consequences of COVID-19

Noreen Goldman
Princeton University

Giovanna Merli
Duke University

403. COVID-19 in Rural America

Tom Mueller
University of Oklahoma

404. Gender and COVID-19

Holly Reed
CUNY Institute for Demographic Research

Anna Gassman-Pines
Duke University

405. COVID -19: Racial and Ethnic Disparities

Kimberly Huyser
University of British Columbia

Alicia Raley
University of California San Francisco

406. Flash: COVID-19, Social Isolation and Mental Health

Johanna (Asia) Maselko
University of North Carolina at Chapel Hill

407. Pandemics in Historical Context

Andrew Noymer
University of California, Irvine

408. COVID-19 Vaccination

Santanu Pramanik
National Council of Applied Economic Research

5. Data and Methods

501. Formal and Mathematical Demography

Kenneth Land
Duke University

502. Statistical and Bayesian Methods in Demography

Adrian Raftery
University of Washington

503. Computational Demography, Machine Learning and Algorithmic Bias

Zack Almquist
University of Washington

504. Advances in Life Course Methods

Tim Liao
University of Illinois

505. Flash: Data Collection in Difficult Times: Covid-19 and Other Challenges

Jason Fields
U.S. Census Bureau

506. Qualitative and Mixed Methods

Lisa Pearce
University of North Carolina at Chapel Hill

507. Advances in Forecasting and Projection of Demographic Outcomes

Rachel Margolis
University of Western Ontario

508. Causal Inference in Demographic Research

Yu Xie
Princeton University

509. Flash: Measurement of Concepts in Demographic Studies

Michael Gaddis
University of California, Los Angeles

510. Historical Demography: Methods and Application

George Alter
University of Michigan

511. Culture: Concepts, Measures, and Influences on Demographic Outcomes

Mark Vanlandingham
Tulane University

6. Education, Work and Economic Inequality

601. Gender, Work, and Family in High-Income Countries

Iga Magda
Warsaw School of Economics

602. Gender, Work, and Family in Low- and Middle-Income Countries

Caroline Krafft
St. Catherine University

603. COVID-19 and Inequality in High-Income Countries

Valentina Rotondi
University of Oxford

604. COVID-19 and Inequality in Low- and Middle-Income Countries

Ragui Assaad
University of Minnesota

605. Ethno-racial and Gender Disparities in Education

Gabriela Sanchez-Soto
University of Houston

606. Ethno-racial and Nativity Disparities in the Labor Market

Beth Redbird
Northwestern University

607. Criminal Justice and Inequality

Amelia Branigan
University of Maryland

608. Early Life Circumstances and Inequality

Erin Baumgartner
Rice University

609. Neighborhoods, Housing, and Inequality

Jacob Rugh
Brigham Young University

610. Human Capital and Inequality in Low- and Middle-Income Countries

Wolfgang Lutz
Wittgenstein Centre for Demography and Global Human Capital

611. Intergenerational Transmission of Socioeconomic Status

Xi Song
University of Pennsylvania

612. Poverty and Social Policy

Tim Slack
Louisiana State University

613. Economic Inequality: Patterns, Causes and Effects

Fabian Pfeffer
University of Michigan

614. Flash: Advances in Poverty, Hardships, and Inequality Research

Colleen Heflin
Syracuse University

615. Flash: Unemployment, Job Insecurity, and Economic Insecurity

Katie Genadek
University of Colorado Boulder

7. Family Demography

701. Cohabitation and Nonmarital Relationships

Kara Joyner
University of Texas at San Antonio

702. Comparative Perspectives on Families

Wei-Jun Yeung
National University of Singapore

703. Families and Economic Inequality

Zachary Parolin
Columbia University

704. Families, the Law and Public Policy

Benoit Laplante
Institut national de la recherche scientifique

705. Families, Health, and Well-Being

Kriti Vikram
National University of Singapore

706. Diverse Family Forms

Kristin Perkins
Georgetown University

707. Men in Families

Barbara Okun
Hebrew University of Jerusalem

708. Gender and Families

Julia Behrman
Northwestern University

709. Intergenerational and Multigenerational Relationships

Lei Lei
Rutgers University

710. Parenting

Kei Nomaguchi
Bowling Green State University

711. Race, Ethnicity, and Families

Youngmin Yi
University of Massachusetts Amherst

712. Union Dissolution

David Ribar
Georgia State University

713. Families and Time Use

Jocelyn Wikle
Brigham Young University

714. Union Formation and Assortative Mating

Daniel Lichter
Cornell University

715. Changing Trends in Families

Valarie King
Pennsylvania State University

716. Flash: Distributions of Resources and Well-Being within Households

Duncan Thomas
Duke University

717. Childlessness and Living alone

Bussarawan Teerawichitchainan
National University of Singapore

8. Fertility, Family Planning, Sexual Behavior, and Reproductive Health

801. Abortion

Alexandra Kissling
University of Maryland

802. Adolescent Fertility and Reproductive Health

Caroline Kabiru
African Population and Health Research Center

Martin Bangha
African Population and Health Research Center

Yohannes Wado
African Population and Health Research Center

803. Flash: Birth Intervals and Birth Timing

Saman Naz
Pennsylvania State University

804. Contextual Influences on Fertility and Family Planning

Heini Vaisanen
Institut national d'études démographiques (INED)

Ewa Batyra
Max Planck Institute for Demographic

805. Contraception and Sterilization

Mieke Eeckhaut
University of Delaware

806. Couple and Intergenerational Fertility Dynamics

Keera Allendorf
Indiana University

807. Cross-National Comparisons of Fertility

Angela Greulich
University Paris 1 Sorbonne

808. Family Planning Service Delivery

Katherine Tumlinson
University of North Carolina at Chapel Hill

809. Fertility and COVID-19
