

PRELIMINARY PROGRAM

FEBRUARY 7 – 9, 2023 | WESTIN ANNAPOLIS, ANNAPOLIS, MARYLAND

- I. [Schedule at a Glance](#)
- II. [Session Overview](#)
 - a. Tuesday, February 7
 - i. [Population Estimates](#)
 - ii. [Aging](#)
 - iii. [Labor/Wages/Employment](#)
 - iv. [Migration](#)
 - v. [Projections](#)
 - vi. [Developments in Applied Projections](#)
 - vii. [Mortality](#)
 - b. Wednesday, February 8
 - i. [Workshop](#)
Overview of 2020 Census Data Products and Introduction to Assessing Fitness-For-Use of Differential Privacy Protected Census Data
 - ii. [2020 Census](#)
 - iii. [Fertility](#)
 - iv. [Mental Health](#)
 - v. [Advances in Tropical Disease Mapping](#)
 - vi. [Childhood Education](#)
 - c. Thursday, February 9
 - i. [Census 2020 and Redistricting](#)
 - ii. [Family](#)
 - iii. [Measuring Race/Ethnicity](#)
 - iv. [Healthcare](#)
 - v. [Differential Privacy](#)
 - vi. [Housing and Neighborhoods](#)
- III. [Poster Presentations](#)

SCHEDULE AT A GLANCE

*PUBLISHED DECEMBER 19, 2022 | TIMES AND CONTENT ARE SUBJECT TO CHANGE | **DRAFT***

DAY 1 | TUESDAY, FEBRUARY 7, 2023

9:00 AM WELCOME & OPENING KEYNOTE

Mike Cline & Muntasir Masum, ADC 2023 Co-Chairs
Robert L. Santos, Director, U.S. Census Bureau

11:00 AM SESSIONS I

POPULATION ESTIMATES

AGING

LABOR/WAGES/EMPLOYMENT

12:30 PM BREAK

2:00 PM SESSIONS II

MIGRATION

PROJECTIONS

3:30 PM SESSIONS III

DEVELOPMENTS IN APPLIED PROJECTIONS

MORTALITY

DAY 2 | WEDNESDAY, FEBRUARY 8, 2023

8:00 AM GOVERNMENT AFFAIRS UPDATE

Mary Jo Hoeksema, Director of Government and Public Affairs, PAA

9:00 AM WORKSHOP

OVERVIEW OF 2020 CENSUS DATA PRODUCTS AND INTRODUCTION TO ASSESSING FITNESS-FOR-USE
OF DIFFERENTIAL PRIVACY-PROTECTED CENSUS DATA

11:00 AM SESSIONS IV

2020 CENSUS

FERTILITY

MENTAL HEALTH

12:30 PM BREAK

2:00 PM POSTER PRESENTATIONS

3:30 PM SESSIONS V

ADVANCES IN TROPICAL DISEASE MAPPING IN SPATIAL DEMOGRAPHY

CHILDHOOD EDUCATION

DAY 3 | THURSDAY, FEBRUARY 9, 2023

9:00 AM KEYNOTE ADDRESS

Sallie Ann Keller, Ph.D., Associate Director and Chief Scientist
Research and Methodology Directorate, U.S. Census Bureau

10:30 AM SESSIONS VI

CENSUS 2020 AND REDISTRICTING

FAMILY

12:00 PM BREAK

1:30 PM SESSIONS VII

MEASURING RACE/ETHNICITY

HEALTHCARE

3:00 PM SESSION VIII

DIFFERENTIAL PRIVACY

HOUSING & NEIGHBORHOODS

SESSION PRESENTATIONS

TUESDAY, FEBRUARY 7, 2023 | 11 AM

POPULATION ESTIMATES

EVALUATING NORTH CAROLINA POPULATION GROWTH: UNDERSTANDING CENSUS UNDERCOUNTS AND IMPROVING POPULATION ESTIMATES

Sarwari Das¹, Raza Lamb¹, Rachel Richards¹, Michael Cline²

¹Duke University, Durham, NC, USA. ²North Carolina OSBM, Raleigh, NC, USA

EVALUATION OF THE 2020 ESTIMATES FOR THE TEXAS COUNTIES PRODUCED BY THE TEXAS DEMOGRAPHIC CENTER

Helen You

University of Texas at San Antonio, San Antonio, Texas, USA

BRINGING VITAL STATISTICS REPORTING INTO THE 21ST CENTURY

Annaka Scheeres, Megan Todd, Giselle Babiarz, Mattie Bodden

Philadelphia Department of Public Health, Philadelphia, Pennsylvania, USA

AGING

AN ASSESSMENT OF SUBJECTIVE WELL-BEING THROUGH LIFE SATISFACTION AND ITS CORRELATION WITH PHYSICAL, MENTAL, AND SOCIAL HEALTH STATUS AMONG THE ELDERLY IN INDIA

Mahadevrao Bramhankar¹, Sampurna Kundu², Mohit Pandey¹, Nandlal Mishra¹, Adarsh Vidrohi³

¹International Institute for Population Sciences, Mumbai, Maharashtra, India. ²Centre of Social Medicine and Community Health, Jawaharlal Nehru University, Delhi, Delhi, India. ³Max Planck, Rostock, Germany

COMPARISON OF POPULATION AGING IN EUROPE AND ASIA USING LIFE-EXPECTANCY ADJUSTED COMPARATIVE AGING MEASURE

Arun Balachandran

University of Maryland, College Park, Maryland, USA

CONTEXTUALIZING MULTIDIMENSIONAL POVERTY FOR THE ELDERLY IN INDIA

Jyoti Das

International Institute for Population Sciences, Mumbai, Maharashtra, India

ASSOCIATION BETWEEN OLD AGE PENSION ELIGIBILITY AND ALCOHOL CONSUMPTION: FINDINGS FROM RURAL SOUTH AFRICA

Janet Jock¹, Erika Beidelman¹, Meredith Phillips¹, Lindsay Kobayashi², Chodziwadziwa Whiteson Kabudula³, Stephen Tollman³, Molly Rosenberg¹

¹Indiana University, Bloomington, Indiana, USA. ²University of Michigan, Ann Arbor, Michigan, USA. ³University of the Witwatersrand, Johannesburg, South Africa

ETHNIC DIFFERENCES IN FUNCTIONAL LIMITATIONS AT ADVANCED AGES IN CHILE

Moisés H. Sandoval¹, Marcela Alvear Portaccio²

¹University of Chile, Macul, Santiago, Chile. ²National University of Colombia, Bogotá, Bogotá, Colombia

GENDER DIFFERENTIALS IN RECEIVING INFORMAL FINANCIAL SUPPORT AMONG ELDERLY IN INDIA

Ruchira Chakraborty, Sekher TV

International Institute for Population Sciences, Mumbai, Maharashtra, India

CAREGIVING: A RISK FACTOR OF POOR HEALTH AND DEPRESSION AMONG INFORMAL CAREGIVERS IN INDIA? A COMPARATIVE ANALYSIS BETWEEN CAREGIVERS AND NON-CAREGIVERS

Ruchira Chakraborty, Arjun Jana, Viraj Vibhute

International Institute for Population Sciences, Mumbai, Maharashtra, India

LABOR/WAGES/EMPLOYMENT

ALLOSTATIC LOAD AMONG NEET ADOLESCENTS AND YOUNG ADULTS IN THE UNITED STATES, 1999-2010

Alexis Santos, Gabriel Cruz

Pennsylvania State University, University Park, PA, USA

WOMEN AND INTERGENERATIONAL MOBILITY IN EDUCATION: A MICRO-LEVEL STUDY FROM WEAVERS' COMMUNITY OF VARANASI, INDIA

Laeek Ahemad Siddiqui¹, Namrata Shokeen²

¹International Institute for Population Sciences, Mumbai, Maharashtra, India. ²Monk Prayogshala, Mumbai, Maharashtra, India

HER INCOME, HIS INCOME, OR BOTH? COUPLE-LEVEL ECONOMIC PREDICTORS OF MARRIAGE FORMATION OVER TIME

Matt Erickson

University of Kansas, Lawrence, KS, USA

ESTIMATION OF CERTAIN MEASURES IN LABOR DEMOGRAPHY USING GENERALIZED STABLE POPULATION RELATIONS

Michael Lachanski

University of Pennsylvania, Philadelphia, PA, USA

MIGRATION

DISPERSION OR RE-SEGREGATION? THE INTERNAL MIGRATION PATTERNS FOR FOREIGN-BORN ASIANS AND HISPANICS

Shuang Li

Bridgewater College, Bridgewater, Virginia, USA

A GENDER PERSPECTIVE ON GLOBAL MIGRATION OF SCHOLARS: EVIDENCE ON MOBILE RESEARCHERS FROM BIBLIOMETRIC DATA

Xinyi Zhao^{1,2}, Aliakbar Akbaritabar¹, Ridhi Kashayap^{2,3}, Emilio Zagheni¹

¹Max Planck Institute for Demographic Research, Rostock, Germany. ²University of Oxford, Oxford, United Kingdom.

³Nuffield College, Oxford, United Kingdom

A SOCIAL NETWORK AND SOCIAL SUPPORT FOR MIGRATION: A SURVIVAL STRATEGY FOR MALE MIGRANT WORKERS IN SURAT'S TEXTILE INDUSTRIES

Bharati Maurya

International Institute for Population Sciences, Mumbai, Maharashtra, India

THE MIGRATING OLD: EXPLORE CHINESE SENIOR RURAL-URBAN POPULATION IN THE PAST 30 YEARS WITH AGE-COHORT-PERIOD MODEL

Manning Zhang¹, Xianni Zhang²

¹Brandeis University, Waltham, Massachusetts, USA. ²Fudan University, Shanghai, China

PROJECTIONS

PROJECTING SMALL AREA RACIAL COMPOSITION FOR HOUSING MARKET AND FORECLOSURE STUDIES

Alex Mikulas

University of Wisconsin-Madison, Madison, WI, USA

LONG VIEW OF AGRICULTURAL LAND USE AND POPULATION GROWTH: AN ASSESSMENT OF CAUSAL RELATIONSHIP

Arjun Jana

International Institute for Population Sciences, Mumbai, Maharashtra, India

MORTALITY

LIFE EXPECTANCY IN LOCAL CONTEXT: THE EFFECT OF TEXAS FREEDOM COLONIES

Candace Jennings

University of Texas at San Antonio, San Antonio, TX, USA

DIABETES & OLDER ADULT MORTALITY RISK IN MEXICO

Cynthia Luz Cisneros Franco

Texas A&M University, College Station, TX, USA

A TRADE-OFF BETWEEN COMMUNICABLE AND NONCOMMUNICABLE DISEASES FOR INEQUALITY IN AGE AT DEATH: AN EXPLORATION OF CAUSES OF DEATH IN INDIA

Suryakant Yadav

International Institute for Population Sciences (IIPS), Mumbai, Maharashtra, India

RELATIONSHIP BETWEEN LOW BIRTH WEIGHT AND INFANT MORTALITY: EVIDENCE FROM NATIONAL FAMILY HEALTH SURVEY 2019-21, INDIA

Arup Jana¹, Unnati Saha²

¹International Institute for Population Sciences, Mumbai, Maharashtra, India. ²University Medical Centre Rotterdam, Rotterdam, Rotterdam, Netherlands

DEVELOPMENTS IN APPLIED PROJECTIONS

This session will bring together complementary perspectives on population projection methods. Each presenter brings a unique perspective from different levels of geographic detail to highlight practical and innovative projection methods. Anne Morse from the U.S. Census Bureau's Population Estimates and Area Projections branch will present on the Census' newest set of long-term fertility projections for the United States. Daniel Goodkind from the U.S. Census Bureau's International Programs Center will present on international projections. Shonel Sen from the University of Virginia's Demographics Research Group will present on state-level projections. The presenters can each contribute not only projection results, but also valuable methodological insights from their work producing projections for non-academic audiences. Dr. Michael Cline, the state demographer for North Carolina, has agreed to contribute his expertise from years of working in applied demography and serve as the Chair.

- Anne Morse, Population Estimates and Area Projections, U.S. Census Bureau
- Daniel Goodkind, International Programs Center, U.S. Census Bureau
- Shonel Sen, University of Virginia, Demographics Research Group, Weldon Cooper Center
- Michael Cline, State Demographer for North Carolina, Office of Management and Budget

WORKSHOP

OVERVIEW OF 2020 CENSUS DATA PRODUCTS AND INTRODUCTION TO ASSESSING FITNESS-FOR-USE OF DIFFERENTIAL PRIVACY-PROTECTED CENSUS DATA

The U.S. Census Bureau is implementing a new Disclosure Avoidance System (DAS) based on differential privacy (DP) to protect respondent information in the published 2020 Census data products. The 2020 Census DAS protects confidentiality by infusing small amounts of "noise" (error) into published tabulations. While the magnitude of this privacy-preserving error is generally small, it can impact fitness-for-use of the resulting data for particular use cases, especially for analyses focusing on very small geographic areas or demographic subgroups.

Work on the DAS to support the 2020 Census Demographic and Housing Characteristics file (DHC) has been completed and the planned release date for the DHC is May of 2023. To assist data users with their use of the DHC, Census staff will introduce workshop attendees to the information and resources that they will be able to use to assess the fitness-for-use of 2020 Census data for their specific, individual applications.

Census staff will also provide an update on the current work being done to develop systems to protect the remaining 2020 Census data products. This includes the disclosure avoidance systems that will support the Detailed DHC-A, Detailed DHC-B, and Supplemental DHC products.

- Michael Hawes, U.S. Census Bureau
- Matthew Spence, U.S. Census Bureau
- Rachel Marks, U.S. Census Bureau
- Alexandra Krause, U.S. Census Bureau
- Jason Devine, U.S. Census Bureau

WEDNESDAY, FEBRUARY 8, 2023 | 2 PM ET

ADVANCES IN TROPICAL DISEASES MAPPING AND CAPACITY BUILDING IN SPATIAL DEMOGRAPHY IN SUB-SAHARAN AFRICA COUNTRIES

Sub-Saharan Africa faces a high disease burden in communicable diseases and an increasing burden in non-communicable diseases with a strong spatial and temporal structure. More recently, increased funding for research from donor initiatives has generated high-quality household data volume, but there is a high demand for biostatisticians to analyze these data locally and quickly resulting in a lack of capacity for advanced data analysis.

Globally, the fields of geographical epidemiology and public health surveillance have benefited from combined advances in hierarchical model building and in geographical information systems. Exploring and characterizing a variety of spatial patterns of diseases at the disaggregated fine geographical resolution has become possible.

Donor funded initiatives exist to address the dearth in statistical capacity, but few initiatives have been led by African institutions. The Sub-Saharan African Consortium for Advanced Biostatistics (SSACAB) aims to improve biostatistical capacity in Africa according to the needs identified by African institutions, through collaborative masters and doctoral training in biostatistics.

In this special contributed session, we will bring together the work resulting in our effort to build capacity in recent developments in tropical diseases mapping (both Bayesian and frequentist) and especially the classes of Bayesian

hierarchical space time models that has been used to characterize the patterns of disease burden in SSA through SSACAB and behind.
