

The Population Association of America and Association of Population Centers
invite you to this in-person briefing

U.S. Birth Rate Trends: Patterns, Drivers, and Implications for American Families

Ice cream will be served!

Wednesday, October 8

3:30 to 4:30 p.m.

2075 Rayburn

House Office Building

RSVP Now

Please join us on **Wednesday, October 8, 3:30 to 4:30 p.m.** in 2075 Rayburn House Office Building for **ice cream** and engaging presentations about U.S. fertility trends and related policies.

An expert panel of leading social scientists will discuss national and international birth rate trends and evidence on the effects of policy incentives, such as tax credits and paid family leave, in impacting an individual's decision to **start a family**. The discussion is particularly timely given the Trump Administration's interest in encouraging higher birth rates nationwide.

Speakers

- Dr. Karen Benjamin Guzzo, University of North Carolina-Chapel Hill
- Dr. Melissa Kearney, University of Notre Dame
- Dr. Jennifer Sciubba, Population Reference Bureau
