PAA 2026 ACKNOWLEDGEMENTS

We look forward to seeing everyone in St. Louis this May! Thank you to all who will help make this meeting intellectually engaging, socially meaningful, and agenda-setting. This is a particularly important moment to come together – to highlight the value of demographic research and showcase findings across a wide range of cutting-edge topics.

We are deeply grateful to the many PAA members who served on the Program Committee, thoughtfully developing session topics across 17 program areas. We also appreciate the volunteers who organized hundreds of regular sessions, carefully selecting from over 2,600 submissions. Special thanks go to the graduate students at the University of Michigan and the University of Wisconsin–Madison who helped organize poster sessions across all thematic areas.

This year's meeting features 982 oral presentations in 250 sessions and 712 posters, covering topics from fertility, mortality, and migration to aging and the life course, spatial and environmental demography, and economic inequality, among many others. The program reflects both the priorities set by the Program Committee and the breadth of research submitted by PAA members.

We also want to recognize the exceptional work of our PAA staff, whose expertise and dedication make this meeting possible. **Tristanne Staudt**, who began as Executive Director last summer, has provided steady leadership and insight during a dynamic time. **Bobbie Westmoreland** has been instrumental in assembling the many pieces of the program. **Francesca Morton** oversees the financial and logistical aspects of the meeting and the organization. **Betsy Alafoginis** leads member engagement and communications. **Mary Jo Mitchell** continues to be a strong advocate for demographic data and research.

We are also grateful to Past President **Irma Elo** and Past Vice President **Kyle Crowder**, who supported the leadership transition in countless ways. We also thank the many PAA Board and committee members whose efforts sustain and strengthen the organization.

We look forward to a stimulating and productive meeting, with many opportunities for connection, collaboration, and the exchange of ideas. See you in St. Louis!
