

LIVE LONG AND PROSPER

The Impact of Education on Mortality

Congressional Briefing and *Ice Cream Social*
Get the scoop on how education affects mortality!

Monday, July 27, 2015

2:30 p.m. to 3:30 p.m.

Gold Room

2168 Rayburn House Office Building

Ice cream will be served starting at 2:15; program begins at 2:30

Federal investments in longitudinal demographic studies have made it possible for researchers to identify and measure how educational attainment affects other important life factors, including long-term health and mortality. A panel of nationally recognized scientists will discuss the latest exciting research findings on this topic. The briefing is relevant to staff working on education, health, science, or data policy.

RSVP by July 23: crdfellow2@dc-crd.com
