Call for Papers

Annual Meeting, Population Association of America

Deadline for Submissions: October 1, 2023

We welcome your submissions for the PAA2024 Annual Meeting and look forward to a full and rigorous scientific conference next spring! **PAA currently has no plans for a hybrid conference and sessions will be in-person in Columbus, Ohio.**

Please note a few important items:

- All accepted presenters will be required to register for the conference by February 5, 2024.
- Unfortunately, **PAA cannot accommodate schedule requests**; if your paper or poster is accepted, it could be scheduled any time between Thursday, April 17 and Saturday, April 20.
- Please note that **individuals can only serve as a presenting author twice on the program** (but can have additional roles such as chair or discussant).
- **Organizers will not review papers from authors with whom they have a conflict of interest** (close collaborators or current students/postdocs). As such, please do not submit your abstract to someone with whom you may have a conflict of interest.
- There will be no travel awards for PAA2024.

Thank you in advance for your submission; we are looking forward to a great annual meeting in 2024.

Sincerely,

Jennifer Glass and Susan L. Brown
PAA2024 Program Co-Chairs
Instructions for Submitting a Paper

Presenters, discussants, chairs, and session organizers must register for the conference. All presenting authors must pre-register for the conference by February 5, 2024 to confirm their intention to attend and present. PAA members receive a preferred rate for annual meeting registration, and all participants are strongly encouraged to join. Learn more about PAA membership online.

Online submissions will be made through the MiraSmart software submission system. Please use this link https://submissions.mirasmart.com/PAA2024/Splash.aspx (the link will be live on or about August 21 when submissions open).

Authors are asked to submit both: a) a short abstract (150 words); and b) either an extended abstract (2-4 pages, including tables) or a completed paper. You may modify your submissions at any time until the October 1, 2023 deadline. Extended abstracts must be sufficiently detailed to allow the session organizer to judge the merits of the paper. Typically, extended abstracts consist of a statement of the research question (and the underlying theory, if appropriate), the data and research methods, and preliminary findings. If your submission is accepted for a regular session, you must upload the full paper by March 27, 2024, to allow the discussant sufficient time to read it.

The PAA 2024 submission website will allow session organizers to view the titles and authors of submitted abstracts as they are submitted. The author making the submission must provide the full name, affiliation, country, and email address of each co-author. Please verify email addresses with co-authors to avoid duplicate records, and to make sure that all of the co-authors’ submissions appear under the same record.

At the time of submission, if there are multiple co-authors, one must be identified as the presenting author. (See below for specification of PAA’s two-presenter rule.) This can be revised until the program is finalized; you will be informed of the deadline via email.

As in the past, all sessions are numbered. If you wish to have your abstract considered by two organizers, you must indicate the session numbers of your first and second choices. Two sessions is the limit. The first designated organizer is given first right of acceptance. No paper/abstract may be submitted to more than two sessions.

PAA 2024 will have some flash sessions that will consist of two parts. First, there will be an oral “flash” presentation (4-6 minutes in length) of each paper. Second, authors will display posters with an informal discussion at each poster.

Submissions to either regular sessions or flash sessions can also be considered as candidates for a poster session. This option is offered during the online submission process.

In addition to the sessions listed in this Call for Papers, approximately 100 “overflow” sessions will be created at the request of session organizers who receive large numbers of submissions. In choosing where to submit your paper, keep in mind that session organizers with broad session titles may end up organizing two or three sessions.

Instructions for Submitting a Poster

Members are encouraged to submit abstracts/papers for consideration as posters. All the above instructions also apply to poster submissions. Authors who wish to have a submission considered only for a poster session should submit to Session 1602. This may be a particularly good option for papers that do not fit into any regular or flash sessions.
An author who is submitting a paper to one or two regular sessions, or a regular session and a flash session, may ask that the submission also be considered for a poster session if it is not accepted in the regular or flash session. This is accomplished by checking “yes” in the appropriate box of the online submission form. Unless you check “yes,” your paper will not be considered for a poster.

**Two-Presentations Rule**

The PAA Board of Directors has instituted a two-presentations rule, i.e., each person is limited to a maximum of two presentations (summed across regular oral sessions, flash sessions and poster sessions). A further rule is a limit of four appearances in total, encompassing the roles of presenter, chair, and discussant. But there is no limit on how many times a person can appear on the program as a co-author. Single-authored papers must be presented by the author. For multiple-authored papers, at the time of submission a presenter must be designated; once all sessions are finalized (that is, all papers and posters have been accepted or rejected), there will be a short time interval when presenter status can be revised. Note that for the purpose of the two-presentations rule, the roles of chair and discussant do not count; instead, there is a limit of four presentations in the roles of presenter, chair, and discussant inclusive.
