

FOUNDATIONS OF PIANO PREPARATION

Fred Sturm, RPT

presented by the Boulder Chapter
of the Piano Technicians Guild

Fred Sturm has been a Registered Piano Technician for nearly 40 years, and a university technician for 34. He has trained with Steinway, Shigeru Kawai, and Sauter, and has taught at annual institutes regularly for about 15 years.

This all-day seminar focuses on procedures for working on both grand and upright pianos, with an emphasis on foundational work (including discussion of solid and free moving parts, focusing hammers on strings, leveling strings, and deep-needle shoulder voicing at the bench.)

Open to all technicians (PTG members and non-members alike) as guests of the Boulder Chapter at no charge. Lunch is included.

January 18, 2020

9:00am - 4:00pm

Mountain View United Methodist

355 Ponca Pl

Boulder, CO 80302
