Senior Risk Analyst - (030020)

Description

Eaton's Corporate Sector is seeking a Senior Risk Analyst. The Senior Risk Analyst will be based at our Beachwood, OH facility.

Position Overview:

The Senior Risk Analyst is the lead analytical resource for the Insurance & Risk Management Department and reports to the Global Property Risk Manager. The role performs key activities needed for the monthly/quarterly accounting close, coordinates all accounting activities for the department, supports the analytical needs of the department, and serves as the system administrator for the department's information systems solution. It also supports special projects initiated by department leadership.

Essential Responsibilities:

- On a monthly basis, complete: (a) workers' compensation cost allocations and reserve reports for the operations, (b) captive insurance company loss reports, and (c) other reports needed for the monthly close.
- Act as primary administrator of the department's Risk Management Information System ("RMIS"); lead the expansion and use of the RMIS functionality; assist with deployment of potential new systems.
- Perform and/or oversee all accounting activities that impact the department; track and complete quarterly reconciliations (fiscal and policy year) of the department's prepaid accounts to the satisfaction of Corporate Accounting.
- Conduct special projects, research, actuarial or analytical work for department management; collect and analyze risk data to support management decision making processes.
- Provide department members and other internal customers with ad hoc reports and analyses.
- Respond to questions from the Operations regarding I&RM's insurance and risk management programs.
- Generate forecasted cost of risk allocations for profit planning in September and actual/final allocations in January.
- Collect, organize, analyze and display underwriting data needed for global insurance program renewals.
- Compile global replacement cost property values annually.

Qualifications

Basic Qualifications:

- Bachelor's degree in Finance or Accounting from an accredited institution is required.
- Minimum 5 years' of experience in accounting, finance and/or insurance/risk management is required.
- No relocation benefit is being offered for this position. Only candidates that currently reside within a 50 mile radius of the Beachwood, OH facility will be considered.
- Must be legally authorized to work in the United States on a continuous basis without company sponsorship.

Preferred Qualifications:

- MBA preferred
- Working knowledge of GAAP accounting principles.
- Superior analytical skills, experience managing large amounts of data, and ability to determine underlying trends in data.
- General knowledge of commercial insurance terms and concepts helpful, but not required.
- Experience using and managing IT systems.
- Mastery of Microsoft Excel and proficiency in financial reporting systems and data output.
