

HONDA RISK MANAGEMENT & INSURANCE (RM&I) IS HIRING!!!

The Power of Dreams™ is alive at Honda.

Honda offers amazing opportunities for those who wish to explore their individual potential as well as contribute to society in a meaningful way. Our products are available the world over and we take seriously the responsibility to not just meet, but to exceed the expectations of our customers and ourselves. To do this requires bright minds, close teamwork and a commitment to fulfill our dreams. Does this sound like you? If so, we strongly encourage you to explore the risk management and insurance opportunity available at Honda.

AVAILABLE POSITION

We are currently looking to fill: **Senior Specialist - Liability**

This opportunity is located in our Marysville, Ohio location – 45 minutes NW of Columbus.

POSITION DESCRIPTION

- Identify both insurance and non-insurance risks and be able to provide recommendations around risk tolerance, mitigation and insurability
- Build relationships, gain trust, find common ground and use a team-building approach to solve problems and accomplish goals
- Strategize and set direction for Casualty/Liability insurance placements
- Responsible for 50+ insurance placements across all Honda business units including Casualty, Cyber, Crime, Fiduciary, and Aviation Products Liability placements
- Daily serve and field questions from associates, brokers, and carriers
- Various presentations to associates and others we serve
- Represent Risk Management & Insurance at various committees
- Review agreements, contracts and RFP

POSITION REQUIREMENTS

10 years in a RM&I environment – at a Fortune 500 or large broker environment.

- Ability to bring best practices to a liability risk finance program
- Experience in bringing a centralized and competitive approach to a risk finance program
- Knowledge of how to benchmark a program to ensure current market conditions and best practices
- Able to bring consensus across various independent entities
- Negotiation skills in managing brokers and underwriters
- Uses expertise and knowledge to improve processes and ensures compliance
- Excellent project management skills
- Self-motivated associate with the ability to multi-task in order to ensure completed renewals and projects
- Technical expertise in the areas of liability risk finance

DEGREE/PREFERRED CERTIFICATIONS

BA: Business, Risk Management, Insurance or Economics

Associate in Risk Management (ARM) certification
