MANAGE AND MONITOR REGULATED DRIVERS

Streamlined management and monitoring for CSA-regulated drivers, including access to CSA profiles, carrier scores, daily activity monitoring, maintenance violations, citations, reporting and medical certificates.

CSA DATA AND MVR DATA ALL IN ONE PLACE

Stay ahead of roadside inspections and mitigate risky behavior that leads to violations by viewing both CSA and MVR data on a single, easy to use platform. Access critical CSA data, including CSA profiles, carrier scores and violation points bringing ease to the process of evaluating and thus improving CSA performance over time. Stay ahead of roadside inspections and prevent costly out of service orders with daily activity monitoring, maintenance violations and medical certificates. Simplify the way your team analyzes CSA data with intuitive reports like driver essentials and various scorecard reports including carrier, map, inspection root cause, trend, benchmark and red flag.
